Operating Highlights

Train 2222(19) - Philadelphia, PA - Engine Failure

20APR26: 6:50pm Train 2222(19) was delayed at 30th Street Station in Philadelphia due to an unknown and unrecoverable penalty. The engineer was unable to get the brakes to release. The crew consulted with HSR Mechanical Personnel. Per HSR Technician Salino, the train would not build air.

Passengers were transferred to Trains 80(19), 2274(19), and 166(19).

8:01pm Crews resolved the issue and the equipment departed 30th Street Station.

Train 124(19) Initial Terminal Delay Newport News, VA -Freight Trespasser Strike /Police Related

19APR26: Train 124(19) with E/83 and 5 cars with 108 customers onboard was delayed due to CSX E205-17 struck a trespasser at MP CA23.2 on CSX Peninsula subdivision and was blocking the route to the main line. The CSX MTO enroute and Local Authorities were on scene. This was a confirmed fatality, and EMS was on the scene.

Train 99(19), operating in the opposite direction into Newport News, was held at Williamsburg, VA.

Train 121(19) South of Trenton, NJ - Engine Failure

19APR26: At 1153A-ET, Train 121(19) with CC/9640. E/668 and 10 cars with 607 customers onboard reported they were stopped on the New York to Philadelphia main line with no H.E.P and a no battery charge alarm at MP 68.7 on track 3. Protection was given on track 4 MP 77.2/Holmes to MP 65.3/Grundy to inspect. The KN720 crew was enroute from MP 65.3/Grundy and will pick up an engineer to cap the train and bring it into Philadelphia where they will be capped with E/632. The weather was 50 degrees and raining, the customers were reported to be okay. The KN720 crew arrived around 1248P-ET to the side of 121(19) to pick up the engineer. They will then advance to MP 77.2/Holmes and reverse back to train 121(19). As of 203P-ET, The KN720 crew arrived to train 121(19) they were in process of coupling to the train and operated dark into Philadelphia where they took off CC/9640 and added E/632.

The conditions onboard were reported to be good just getting a little warm. Service recovery was initiated.

Turns of equipment were changed in Washington train 195(19) turned for 122(19) and 121(19) turned for 104(19).

Train 151(19) South of Alexandria, VA -Large Tree Down/ Debris

19APR26: At 805A-ET, Train 151(19) with E/206 and 5 cars with 195 customers onboard reported they were stopped on the NS Washington District at MP 16.3 due to a large tree on the tracks ahead. NS reported that M/W was enroute and estimated to arrive at 10A-ET, C&S was on scene around 905A-ET. C&S started the tree removal process. Train 151(19) made a reverse move back to a VRE at MP 15.1/VRE Backlick station so passengers could get off if they wanted to. Service recovery was initiated with snack packs and bottled water. As of 11A-ET the NS updated M/W stated they needed and additional 1'30" to finish removing the tree. Due to this train 51(19) was held in Washington until 1231P-ET. Trains 20(18) was held at MP 20.3 and 156(19) was held at MP 22.4 on the NS Washington District.

As of 132P-ET The NS reported they had one track open and train 151(19) was released followed by 51(19) and then 20(18) and 156(19).

This also caused train 66(19) to be delayed departing Roanoke due to turning off late 151(19).

Train 66(18) East of New York, NY - Engine Failure

19APR26: Train 66(18) with E/609 and 5 customers onboard reported that they lost power and were not able to recycle E/625 on the Amtrak Hellgate at MP 5.1. The train was without H.E.P on E/625 due to having IO station faults and the batteries not charging as of 609A-ET. New York readied E/609 with the YN1 crew to cap the train. The temperature in the area was 51 degrees and cloudy. It was reported that most customers were sleeping and Service Recovery was initiated with snack packs and bottled water for the customers that were awake. Once the YN1 crew arrived they added E/609 but were still having problems with the communication cable. Train 2290(19) dropped mechanical personal to assist with problem. As of 745A-ET they were able to restore HEP and as of 805A-ET they were back on the move proceeding east.

Train 98(19) North of Palatka, FL - Brush Fire / Police Hold

19APR26: Train 98(19) with E/333, E/355 and 11 cars with 240 customers onboard, was stopped north of Palatka on the CSX Sanford subdivision at MP 691.0 due to a massive brush fire and police hold at MP 785.9. CSX updated and stated the fire was large ranging for 20 miles with 50 Fire Fighters on scene with hoses and personnel on the tracks. By 9:00pm, multiple news outlets were reporting the fire to be growing in size and covering up to 3000 acres. There were reports of multiple spots along the railroad with tie fires.

In addition to Train 98(19), Train 52(19) and 40(19) were ultimately turned back to their origination points. Train 97(19) was held at Jacksonville for disposition and Train 41(18) was held at Savannah for disposition. CNOC Customer Service attempted to source bussing for SAV-MIA and JAX-MIA.

As of 4:00am, there was no official update as to the status of firefighting efforts or the state of the railroad at the incident area. Efforts to adjust Amtrak service was still ongoing, as the situation remained fluid.

Sources speculated the cause of the fire was CSX freight R636-18 with sparking wheels.

Operating Highlights

Train 591(19) West of Anaheim, CA - Vehicle Strike

20APR26: At approximately 9:43 PM PT, Train 591(19), operating with CC/6904, five cars, locomotive E/C2118, and 182 customers onboard, struck a vehicle west of Anaheim, CA Station, at MP 169.2 on the Metrolink Orange Subdivision, within Anaheim, Orange County, CA. The incident occurred on double-main-track territory and not at a public grade crossing. The vehicle was later determined to be abandoned prior to the E. Ball Road crossing.

Local law enforcement responded to the scene, and an Amtrak Road Foreman arrived at approximately 10:25 PM PT to provide support. There were no reported injuries to the crew or customers onboard, and head-end power remained operational throughout the incident. Weather conditions at the time were reported as 61°F and clear. A tow truck arrived on scene at approximately 11:07 PM PT, and once the vehicle was removed and the tracks were cleared, Train 591(19) was authorized to proceed and continued westbound toward Fullerton, CA Station.

While the investigation and recovery were ongoing, additional trains were impacted in the corridor. Train 593(19), carrying 62 customers, was held at Anaheim Station; Train 794(19), carrying 199 customers, was held at Fullerton Station; and Train 595(19), carrying 79 customers, was held at Santa Ana Station. Service-recovery measures were initiated onboard all four affected trains to support customers during the extended delay.

Train 518(19) North of Bellingham, WA - Freight Train Interference

20APR26: Train 518(19), carrying 70 customers onboard, was delayed north of Bellingham, WA, while holding at Swift/ MP 116.6 on the BNSF Bellingham Subdivision due to a disabled BNSF freight train ahead in Canada. BNSF freight train E-RBGXML-35T with BNSF 7701 was stopped with a broken knuckle at MP 123 on the BNSF Westminster Subdivision, blocking the route for northbound traffic. BNSF Mechanical forces responded to repair the freight train, and once the consist was reassembled, the freight was required to clear U.S.-Canada customs procedures before movement could resume. Following completion of repairs and clearance of the international territory, Train 518(19) was released and resumed its northbound trip.

Train 11(19) North of Dunsmuir, CA - Bear Strike

20APR26: Train 11(19), with engines 345 and 376, 9 cars, and 162 customers onboard, was delayed at Hotlum siding/MP351.8 19 miles north of Dunsmuir, CA/MP322.1 on the UP Black Butte subdivision due to UP freight GMETPX-17 striking at bear at around mile post 350.0. The UP freight crew inspected the equipment and was back on the move when Amtrak train 11(19) was authorized to advance. Train 11(19) struck the same bear carcass at mile post 349.1, knocking out an air hose and putting the equipment in emergency. The crew reseated the hose, recovered the air, and was back on the move.

Train 507(19) North of Olympia-Lacey, WA - Switch Failure

19APR26: Train 507(19), carrying 157 customers onboard, was delayed north of Olympia-Lacey Station on the BNSF Seattle Subdivision due to a broken switch at CP 31 (MP 31.9). Inspection revealed that the switch was missing a critical bolt, preventing it from being lined properly either remotely or by hand. As a result, Train 507(19) was instructed to shove back to Nisqually (MP 24.8), move over to Main Track 2, and then resume its trip. Once the alternate routing was completed and the route was confirmed safe for movement, Train 507(19) continued without further incident.

Train 710(19) Corcoran, CA - Third Party Contractor Engine Failure

19APR26: Train 710(19), operating with CC/C6965, six cars, locomotive E/C2012, and 126 customers onboard, experienced a delay at Corcoran, CA Station after the crew reported the prime mover shutting down with a hot-engine alarm. Upon inspection, the crew determined that the engine coolant level was low, resulting in a coolant pressure fault that caused repeated automatic shutdowns. The crew coordinated with TASI Mechanical technicians and Amtrak management via phone and was able to restart the locomotive, allowing the train to depart Corcoran.

Mechanical issues persisted, however, requiring the crew to restart the locomotive multiple times as the train operated at reduced reliability eastward toward Wasco, CA. With Train 712(19) approaching the area, a decision was made to couple the two trainsets together to ensure all customers were moved safely to Bakersfield. Due to the equipment failure and resulting operational delays, Train 719(19) was canceled in its entirety, and affected customers were reaccommodated on Train 703(19). Additionally, for customers traveling to Bay Area stations, two buses were sourced to provide onward transportation from Stockton ACE Station.

Train 595(18) West of Fullerton, CA - Freight Train Derailment

19APR26: At approximately 11:35 AM PT, BNSF Terminal Manager confirmed that a local Union Pacific freight train derailed multiple units west of Fullerton, CA, at DT Junction (MP 151.9) on the BNSF San Bernardino Subdivision. Initial reports indicated that all three main tracks were blocked, resulting in an immediate suspension of rail traffic through the area. As a result, Train 595(18), carrying 63 customers onboard, was held at Fullerton Station while awaiting additional information and recovery plans.

Customer accommodations were initiated due to the extended outage. Customers onboard Train 595(18) were provided alternate transportation, including Bus 5811 for continued travel to Los Angeles, CA, with remaining customers accommodated on an additional bus sourced specifically for this incident.

At approximately 12:35 AM PT, a BNSF Terminal Manager arrived on scene and confirmed that a four-foot section of railroad diamond had broken on Main Track 1. Multiple freight cars were reported derailed but upright, and no hazardous materials were involved. Recovery and repair planning continued while BNSF assessed the damage and developed a restoration timeline. Main track 2 and 3 were open for operation requiring trains to flag by the area before any morning service routes. The area was fully cleared by 12:20 PM PT and all operations resumed without restrictions.

CPKC Watertown Subdivision - Scheduled M/W Work

09APR26: CPKC has tie replacement trackwork on the Watertown Subdivision starting April 20th through June 21st between Columbus, WI and Milwaukee, WI. In order to accommodate the infrastructure work, Amtrak's Borealis Service is adjusted as follows:

- Train 1333 (20Apr-21Jun) will have 12-minutes of recovery added at Columbus, 5-minutes of recovery added at Wisconsin Dells, and will arrive at St. Paul 15-minutes later at 6:56pm
- Train 1340 (20Apr-21Jun) will operate 10-minutes Earlier between St. Paul and Milwaukee, departing St. Paul at 11:39am, and will operate 5-minutes Later between Milwaukee and Chicago, departing Milwaukee at 5:49pm.

WBS#: B.TR.100150.6620

11MAR26: Union Pacific Railroad trackwork scheduled on their Mineola Subdivision between Fort Worth, TX and Longview, TX, on numerous dates between Thursday March 12th and Tuesday, April 28th, 2026. To accommodate this infrastructure work, Amtrak's Texas Eagle Service has been adjusted as follows:

-Train 21(12Mar-16Mar, 23Mar-30Mar, 6Apr-12Apr, 20Apr-27Apr), which operates between Chicago and San Antonio, will utilize a bus bridge in lieu of train service between Marshall and Fort Worth. The Fort Worth to San Antonio section will operate as Train 1021(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr) and will operate 80-minutes later between Fort Worth and San Antonio, departing Fort Worth at 3:48pm.

Train 421(13Mar, 15Mar, 24Mar, 27Mar, 29Mar, 7Apr, 10Apr, 12Apr, 21Apr, 24Apr, 26Apr), which normally operates between Chicago and Los Angeles, will originate at Fort Worth and will operate 80-minutes later between Fort Worth and San Antonio, departing Fort Worth at 3:48pm.

-Train 22(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr), which operates between San Antonio and Chicago, will utilize a bus bridge in lieu of train service between Fort Worth and Marshall. The Marshall to Chicago section will operate as Train 1022(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr) and will operate 2-hours later between Marshall and St. Louis (departing MHL at 9:29pm), and 2 hours 15-minutes later between St. Louis and Chicago (departing St. Louis at 10:25am).

-Train 422(11Mar, 13Mar, 15Mar, 22Mar, 25Mar, 27Mar, 29Mar, 5Apr, 8Apr, 10Apr, 19Apr, 22Apr, 24Apr, 26Apr), which normally operates between Los Angeles and Chicago, will terminate at Fort Worth.

ALTERNATE TRANSPORTATION

-Bus 3021 will provide alternate transportation at Marshall, Longview, Mineola, Dallas, and Fort Worth

-Bus 3022 will provide alternate transportation at Fort Worth, Dallas, Mineola, Longview, and Marshall

**Please Note: During trackwork days, Bus 6022 from Houston and Buses 6122 and 6421 from Shreveport will be redirected to Marshall, instead of Longview, and Bus 6021 to Houston and Buses 6121 and 6422 to Shreveport will depart from Marshall.

18MAR26: Train 1022(17), E/69-E/668 & 7 cars, was delayed departing St. Louis, MO, due to issues initializing PTC for UPRR. UPRR reported system issues with train symbol related to the planned track work. Road foreman was on scene assisting crew. After working with UPRR PTC desk numerous times, issues were still unresolved and Train 1022(17) was authorized to operate over the UPRR with PTC cut-out. Train 1022(17) was delayed enroute to Joliet, operating 59MPH Max.
