Portal North Bridge - Delays/ M of W Work

18FEB26: Train delays were planned and attributed to Amtrak's cutover work transferring service from the 115-year-old Portal Bridge to the new Portal North Bridge. The multi-week construction effort resulted in reduced Amtrak and NJ TRANSIT service levels through the area, which created operational constraints and contributed to slower movement and periodic congestion. Although trains continued to operate throughout the day, the limited track availability and ongoing infrastructure adjustments frequently impacted scheduled operations

Train 8/28(25) East of Essex, MT - High Wind Warnings

26FEB26: A powerful storm with heavy winds passed through parts of Montana. The storm brought west to northwest high winds between 40-60MPH with gusts up to 95MPH. Due to this storm the BNSF placed high wind warnings on their HI Line subdivision between MP 1156, 12 miles east of Essex, MT to MP 1141, 3 miles west of East Glacier Park, MT. At 9:30A-MT, with the high wind gusts of up to 95MPH, it was decided to hold Train 8/28(25) at Essex until the high wind warnings expired at 1:30P-MT. Train 8/28(25) arrived in Essex, MT at 9:47A-MT with 110 passengers on board. The ambient outside temperature was between the upper 20 and low 30 degrees. At 1:30P-MT, the BNSF reported the high wind warnings were extended to 6:00P-MT. The crew also reported issues with E/317 showing faults. The remote location made troubleshooting with CNOC mechanical challenging. The BNSF dispatch relayed the troubleshooting information via radio. The recrew conductor arrived at 2:45P-MT. Another recrew went on duty at 5:00P-MT and was vanned to location with Amtrak road foreman. Once the winds died down, and the high wind warnings expired, Train 8/28(25) proceeded east.

Update:

Train 7/27(25) arrived at Shelby, MT, at 6:00pm-mt, and held for the High Wind Warnings to subside. Train 8/28(25) was released and departed Essex, MT, at 10:03pm-mt, operating after a 12'07" delay. Train 7/27(25) was released and departed Shelby, MT at 10:08pm-mt, after a 4'00" delay. Both trains operated at reduced speeds until they cleared the High Wind Warnings.

Service recovery: Regular dinner service was held on train 8/28(25) and 7/27(25) for both sleeper passengers and coach passengers. Snack packs and water were made available to all passengers.
