57(12)	1'19"	

Train 672(12) - Philadelphia, PA - Engine Failure due to Loss of OCS Power

12JUL26: Train 672(12) came to a stop on the N7 track after it passed the "T" signal coming off the Philadelphia to Harrisburg Line, through Zoo interlocking. The train lost tractive power and HEP.

The KP815 crew at Penn Coach Yard took Diesel Motor 578 to rescue the 672(12) set and tow it to 30th Street Station. Once the set was back under power in the station, it was livened up and then continued its run east to New York.

Train 135(12) - South of Philadelphia, PA - Trespasser Strike

12JUL26: 8:04pm Train 135(12) 00000008289 607 "UNCLASSIFIED" cars 7/15/2028 ing 522 passengers, struck a trespasser on the Amtrak Philadelphia to Washington Line at MP 14.3 on No 3 track. There were no reported injuries among the passengers or crew. The trespasser was a confirmed fatality. There was no reported damage to the equipment. This did not occur at a DOT grade crossing. The Weather at the time of incident was 79° and partly sunny.

Amtrak Management and Amtrak Police responded to the incident scene.

A recrew was summoned and took over the train's operation after it was cleared to depart by local police.

9:29pm APD released the hold on NO. 1 track at the scene and train movement via single tracking resumed.

10:05pm The coroner arrived.

Multiple Amtrak trains incurred delay related to this incident.

Train 2254(12) Newark, NJ - Engine Failure

12JUL26: Train 2254(12), operating with power cars 2036/2017, 6 power coaches and 282 customers, was delayed at Newark, NJ, due to and engine fault that caused the pantograph to drop. The crew worked with Road Foreman and High Speed Foreman to resolve. Once resolved the was able to raise its patnographs and continue on into New York. However, once on the move the train received an additional penalty which limited their speed to 20mph between Newark, NJ, and New York, NY.

Train 2255(12) Route 128, MA - Acses Failure

12JUL26: Next Gen Acses for 2255(12) operating with power 2147/2143, was delayed at Route 128, MA, on Amtrak NHB line, due to an Acses fault. The crew worked with Amtrak road foreman to try an resolve but were unsuccessful, as a result the train operating from Route 128, MA, to New York, NY, not exceeding 79 mph. Train 2255(12) reestablished ACSES in New Haven, CT, and resume normal speed.

Philadelphia, PA - Catenary Damage/Trees in Catenary

11JUL26: 4:03PM - Train 194(11) reported broken signal wire down on the no. 4 track side at MP 4.5 Train 194(11) was able to operate safely on no. 3 track. Southbound trains were held in PHL until confirmation on clear route on No. 3 track Phil/MP 3.6 to Baldwin/MP 11.7. Northbound trains continued to operate on No. 1 track Hook/MP 16.8 to Phil. A Track Foreman in the field reported branches in the catenary ay MP 4.1 on No. 4 track. An emergency plate went into effect on NO. 4 track Phil - Baldwin, which did not effect the available routes for northbound and southbound trains. ET reported track/MW may not be able to remove the tree until signal line is repaired. Call outs for ET Personnel response was made at 4:11PM

10:10pm IMCS reported the estimated time for completion of repairs and return to normal service between Phil and Baldwin is 10:00am 07/12/26. Until then substantial delays are to be expected for trains traveling through the impacted span.

12JUL26: As of 5:00pm-et, ICMS and ET Personnel were still on the scene working to resolve the signal issues and clear any debris from the tracks and catenary. All trains operating through the area were affected by TOLs, requiring them to stop and proceed at restricted speed multiple times in the interlocking.

12JUL26: 10:27PM Signal Power and RTU were restored to normal working conditions. The hold was lifted on NOs. 1 and 2 tracks - all personnel were reported clear. Normal operations resumed (making noise)

Train 665(11) West of Philadelphia, PA - Catenary or Wayside Failure

11JUL26: At 2:55 pm-ET-00590 665(11) operation UNCLASSIFIED 7/16/2026 with low lives 653-654, 5 cars and 233 customers became disabled without HEP at MP 3 on the PH line due to reported trees in the wire and wires down between Narberth and Overbrook resulting in an emergency plate going into effect taking out the OCS power. Rescue diesel 744 was dispatched to the location 665(11) and pulled 665(11) back to Philadelphia where it was cancelled.

Due to the extent of the damage service on the PH line was suspended for the remainder of the day to allow IMCS to make necessary repairs.

As a result, the following service adjustments have been made:

665(11), 667(11), 669(11) terminated Philadelphia cancelled Philadelphia to Harrisburg

672(11), 674(11) originate Philadelphia cancelled Harrisburg to Philadelphia

670(11) terminated Paoli cancelled Paoli to New York

671(11) cancelled in entirety New York to Harrisburg

Additional service truncations were made for 07/12/26, as the estimated time for completion of repairs and normal operations was adjusted to 12:00pm.

12JUL26: Tracks were opened for diesel operation at 12 noon. There was a TOL on 2 track at Stiles interlocking preventing Electric operations. A maintainer was dispatched to resolve. trains 42(12) and 43(12) were able to resume service, with 42(12) departing Harrisburg on time, and 43(12) departing New York on time and departing Philadelphia, 19 minutes late.

Once the TOL on 2 track was resolved there were more branches found in the catenary by the ET Foreman which further delayed the keystone trains from operating.

12JUL26: 10:46PM Catenary Power was restored to No. 3 Track Bryn Mawr to Overbrook.

UPRR Desoto Subdivision Washout - North of Poplar Bluff, MO

10JUL26: At 3:30AM-CT, Union Pacific reported a washout on the UPRR DeSoto Subdivision at Annapolis (MP108), located 57.6 miles north of Poplar Bluff, MO (MP165.6). As a result, Train 22(09) arrived at the Poplar Bluff station at 4:04AM-CT with 144 customers onboard and held for disposition.

A Union Pacific Manager of Track Maintenance responded to the washout location at 4:20AM-CT and provided a preliminary estimated track restoration time of 2:00PM-CT. A detour route was available via the Chester Subdivision between Poplar Bluff and St. Louis, bypassing Arcadia. No customer impact occurred at Arcadia, as no customers were scheduled to board or detrain at that location. Union Pacific pilot crews went on duty at 6:10AM-CT and responded to the train, arriving at 7:00AM-CT. Upon the pilots' arrival, Train 22(09) departed Poplar Bluff at 7:21AM-CT and proceeded over the detour route via the Chester Subdivision.

At 12:00PM-CT, Union Pacific reported that floodwaters were not expected to begin receding until Saturday, July 11. Following the water's recession, a track inspection would be required before rail operations could resume through the area. As a result:

-Train 21/421(10) detoured via the Chester Subdivision with 6 on / 0 off at Arcadia. The affected six customers were notified and advised to rebook on the next available departure.

-Train 22(10)/422(08) detoured via the Chester Subdivision with 0 on / 5 off at Arcadia. A sprinter van transported passengers from Saint Louis, MO back to Arcadia, MO.

11JUL26: Union Pacific reported that the floodwaters were not expected to recede until Sunday, July 12th. As a result, Trains 22(11) and 21(11) were also routed via the Chester Subdivision detour with no alternate provided to/from Arcadia.

12JUL26: UPRR revised eto was updated to 930AM-CT 12JUL. Due to no available UPRR pilots to support the detour, Train 22(11), with 109 customers, was delayed at Poplar Bluff, MO, holding for dispo of the route ahead and then further delayed through the area. Train 22(11) was delayed due to the 10MPH speed restriction through the washout area and also signal issues between MP107 and MP92. Train 21/421(12) was also delayed operating at 10MPH through the washout site.
