Train 712(09) Stockton, CA - Third Party Contractor Cab Car Failure

09NOV26: Train 712(09), operating on the BNSF Stockton Subdivision with Cab Car C8307 leading and Locomotive C2012 trailing, experienced multiple brake penalty applications after departing ACA at MP 1152.1. The brake-related issues were traced to Cab Car C8307 and resulted in repeated operational interruptions requiring crew intervention and troubleshooting.

Train crews worked with TASI personnel to diagnose and resolve the issue while en route. Following troubleshooting efforts, the train was able to proceed and departed Stockton Station; however, the mechanical condition persisted. Shortly thereafter, Train 712(09) was required to shove back into the Stockton, CA station for additional mechanical evaluation and assistance.

Mechanical personnel and operating crews continued troubleshooting efforts, but the defects could not be corrected sufficiently to allow the train to continue safely in service. As a result, Train 712(09) was terminated at Stockton Station. Customers were detrained and accommodated on Train 714(09) to continue their travel.

To clear the disabled equipment and maintain operational fluidity, Train 713(09) coupled onto Train 712(09) and towed the equipment to the Oakland Maintenance Facility for further inspection and repair. Due to handling the disabled consist, Train 713(09) operated with a double-draft consist and subsequently terminated at Emeryville, CA. Customers on Train 713(09) were accommodated on the next available service.

As a consequence of the equipment failure, associated rescue movements, and resulting equipment shortage, Train 717(09) was canceled in its entirety.

Due to the late operation of train 713(08) as a double draft that arrived Emeryville at 440PM-PT, 1 hour, and 46 minutes late. As a result, train 718(09) was delayed departing Oakland due to the late turn of this equipment. The decision was made to utilize train 715(09) equipment for train 718(09) to diminish further delays. Train 715(09) arrived Oakland at 528PM-PT, 14 minutes late. Train 718(09) originated at Emeryville and departed at 704PM-PT, 1 hour, and 6 minutes late. Customers for train 718(09) traveling between Oakland and Emeryville were accommodated on train 544(09).

27-FCI-00137 0000009129 "UNCLASSIFIED" 11/19/2026

Train 3(08) East of Las Vegas, NM - Signal

09NOV26: Train 3(08) was delayed east of Las Vegas, NM, on the BNSF Raton Subdivision after encountering a series of restrictive signal indications between MP 753.4 and MP 765.1. The train operated through multiple approach, restricting, and stop signals, including Approach signals at HW 7531 and 7561, Restricting signals at 7581 East Onava and 7621, and a Stop signal at West Onava. As a result, the train was required to proceed at reduced speeds and in accordance with signal indications while awaiting authority to continue through the affected territory.

The cause of the restrictive signal conditions was not immediately known. The succession of signal indications significantly reduced operating speeds and affected the train's ability to maintain schedule. Once the signal conditions cleared and dispatching authorities authorized movement, Train 3(08) resumed normal operations.

Train	Delay	Comment
3(08)	30"	

Train 517(09) North of Stanwood, WA - Passenger Train Interference

09NOV26: Train 517(09) was delayed approximately 2 miles north of Stanwood, WA, on the BNSF Bellingham Subdivision due to operational train meets on the host railroad. The delay occurred while Train 517(09) was required to meet opposing Train 516(09) at Logan Siding. The meet was necessary because Train 516(09) was operating behind schedule after being delayed earlier while meeting BNSF freight train 4686 near Everett Station. As a result, the late arrival of Train 516(09) at the designated meeting point impacted the movement of Train 517(09), requiring it to hold while the opposing train cleared the route. Once the meet was completed and track authority was available, Train 517(09) resumed its trip.

Train 757(09) Van Nuys, CA - Police Related

09NOV26: Train 757(09) was delayed west of the Van Nuys, CA station on the Southern California Regional Rail Authority (SCRRA)/Metrolink Ventura Subdivision after Metrolink Train 102 (ML102) struck an unoccupied vehicle fouling the single main track approximately 3 miles west of Van Nuys at MP 450. As a result of the collision, all rail traffic was halted between Van Nuys (VNC) and Chatsworth (CWT) while emergency responders and local authorities secured the scene and conducted their investigation.

Following the incident, ML102 reported damage to the cab car, including a bent plow. Mechanical personnel responded to assess the equipment and perform necessary repairs. A Metrolink relief crew was also dispatched to assist. Amtrak coordinated mutual aid with Metrolink, and Pacific Surfliner Train 765(09) was authorized to make additional stops at Burbank Airport South (BBK) and Northridge (NRG) to help accommodate impacted passengers and maintain service continuity.

Metrolink officials later determined that the damaged equipment could be safely moved at a restricted speed of 30 MPH to the nearest siding in order to clear the route and restore rail traffic. However, Federal Railroad Administration (FRA) requirements mandated that the damaged plow be removed prior to movement, extending the service disruption by several hours. Once local authorities released the scene and the required mechanical work was completed, ML102 was placed back in motion and began clearing the affected territory.

During the incident, contingency plans including bus substitutions were considered; however, bus transportation was ultimately canceled after ML102 was cleared to move. Pacific Surfliner service adjustments remained in effect throughout the event to protect scheduled operations and minimize customer impacts. Train 757(09) experienced significant delays as a result of the track blockage and subsequent recovery efforts. Once the route was reopened, normal operations gradually resumed.

UPRR Santa Barbara Subdivision North of Goleta, CA- Track and Time Authority

16OCT26: The UPRR placed general orders in effect beginning October 16th at 7:00A-PT instituting track and time authority on approximately 61 miles of territory on the Santa Barbara Subdivision between CO295, 4 miles north of Lompoc-Surf Station, and CO356, 2 miles north of Goleta, CA. Multiple trains were delayed operating through the affected area due to signal issues where crews operated at restricted speed and stopped to flag crossings.

17OCT26: In order to minimize customer delays due to this, the following Service Adjustments were implemented:

Train 761(17) and 765(17) were originated at Los Angeles, CA, no alternate transportation provided.
Trains 757/ 765/ 777(17-01NOV) Terminated Goleta, CA with alternate bus transportation provided to San Luis Obispo, CA.
Trains 774/ 786/ 794(17-01NOV) Originated Goleta, CA with alternate bus transportation provided from San Luis Obispo, CA.
Three busses were secured to operate each route, and did not make the Lompoc-Surf, CA station stop.

23OCT26: The operating plan was extended through at least Sunday November 1.

30OCT26: The operating plan was extended to Friday November 6th.

04NOV26: The operating plan was extended to Friday November 15th.

Maintenance of Way Highlights

27-FOI-00187 0000009129 "UNCLASSIFIED" 11/7/2028

Pacific Surfliner and Coast Starlight Service San Luis Obispo, CA to San Diego, CA - Scheduled M/W TW 27-021

07NOV26: A multi-agency track maintenance project involving North County Transit District (NCTD), Southern California Regional Rail Authority (SCRRA/Metrolink), and Union Pacific Railroad (UP) was conducted between San Luis Obispo, CA, and San Diego, CA. To accommodate the work, the following operating plan was implemented:

Coast Starlight
Train 11 (November 5-7): Terminated at Emeryville, CA with alternate transportation provided between Sacramento and Los Angeles via Gold Runner Services.
Train 14 (November 7-9): Originated at Emeryville, CA with alternate transportation provided between Los Angeles and Martinez via Gold Runner Services.

Pacific Surfliner
Friday, November 6
Train 794(06) Originated in Goleta, CA account of ongoing signal issues and Terminated at Los Angeles, CA account of the scheduled track work. Bus 3594 provided alternate transportation between Los Angeles and San Diego making all stops except San Juan Capistrano
Train 595(06) Canceled in its entirety. Customers were accommodated on Bus 5811.

Saturday, November 7, and Sunday, November 8
All Pacific Surfliner trains were canceled. No alternate transportation was provided.

09NOV26: Due to a delay in the track work and testing on the NCTD. As a result, trains 761(09) and 765(09) originated at Solana Beach with alternate bus transportation provided by the NCTD. Two buses were staged at San Diego and one bus was staged at Old Town for each train. Trains were delayed throughout the day on the NCTD San Diego subdivision starting eight miles west of Solana Beach between MP 233.95 and MP 235.35 due to a 15mph speed restriction in place account of the Batiquitos Lagoon double track project. It was reported that the restriction would increase to 30mph through this area on November 10.

UPRR Alhambra Subdivision Los Angeles, CA to Palm Springs, CA - Scheduled M/W Work TWA 27-020

27-FOI-00137 00000009129 "UNCLASSIFIED" 11/10/2026

26OCT26:To accommodate infrastructure work between Los Angeles, CA and Palm Springs, CA, the Sunset Limited and Texas Eagle services will be adjusted as follows:

Train 1(31Oct, 7Nov, 14Nov) and Train 42(30Oct, 6Nov, 13Nov) will detour over the BNSF San Bernardino Subdivision between West Colton(UPRR Alhambra subdivision) and Soto(BNSF San Bernardino subdivision), bypassing Ontario, CA (ONA) and Pomona, CA (POS). Train 801(2Nov, 9Nov, 16Nov) was created for the detour between Riverside, CA (RIV) and Los Angeles, CA (LAX).

Train 2/422(1Nov, 8Nov, 15Nov) will detour over the BNSF San Bernardino Subdivision between Soto(BNSF San Bernardino subdivision) and West Colton(UPRR Alhambra subdivision), bypassing Pomona, CA (POS) and Ontario, CA (ONA). Train 802(1Nov, 8Nov, 15Nov) was created for the detour between Los Angeles, CA (LAX) and Riverside, CA (RIV). An Amtrak LAX pilot crew will pilot the train over the BNSF San Bernardino Subdivision. No alternate transportation will be provided to POS and ONA.
