Train 782(02) South of Santa Barbara, CA - Trespasser Strike

02NOV26: At approximately 1:14P-PT, Train 782(02), operating with Cab Car 6905, 5 cars, Locomotive 2113, and 84 customers, struck a trespasser on single main track at MP 368.9 on the Union Pacific Santa Barbara Subdivision, 2 miles south of the Santa Barbara, CA station, Santa Barbara County. The incident did not occur at a crossing. The trespasser was alive, and no injuries were reported to the crew or customers. The entire crew requested and received relief at the scene. Head-end power remained operational. Local authorities were requested to respond. The weather was reported as 70°F and partly sunny. Amtrak Management responded to assist but the tracks were released prior to arriving. Local Police responded to perform their investigation.

As a result of the incident, the following service adjustments were planned:

- Train 782(02) was to shove back to the Santa Barbara, CA station, where customers were to transfer to Train 786(02) to continue south.
- The equipment from Train 782(02) was to await a relief crew before deadheading to Los Angeles, CA Union Station.
- An on-time Train 782(02) was to originate at Los Angeles, CA Union Station and operate to the San Diego, CA station.
- Train 769(02) was to hold pending the track reopening.

Train 502(02) South of Tukwila, WA - Trespasser Incident

02NOV26: At approximately 11:50A-PT, Train 502(02), operating with Locomotive WS1406, 3 cars, Cab Car 90253, and 152 customers, had a trespasser on a skateboard strike on the engineer side of the train at West Main Street crossing (MP 21.4X, DOT # 085655A) on the Burlington Northern Santa Fe Seattle Subdivision, 11 miles south of the Tukwila, WA station, in King County. The trespasser sustained fatal injuries. The weather was reported as 45°F and cloudy. The crossing is protected by active warning devices. No injuries were reported to the crew or customers, and head-end power remained operational. The engineer was relieved at the scene while the conductor operated the train to Seattle, WA before taking relief. Local law enforcement responded to the scene. An Amtrak management employee and relief engineer were en route. Train 517(02) held at Tukwila, WA station for open track.

Train 566(02) East of Oceanside, CA - Vehicle Strike

02NOV26: At approximately 10:40 a.m. PST, Train 566(02), operating with Locomotive 2109, 6 cars, and 169 customers, struck an occupied vehicle on single main track at Grand Avenue crossing (MP 229.2, DOT #026820X), 3 miles east of the Oceanside, CA station, on the North County Transit District San Diego Subdivision, in San Diego County. The crossing was protected by active warning devices. The weather was reported as 70°F and fair. The vehicle driver was conscious, and no injuries were reported to the crew or customers. The entire crew requested relief. The HEP was operation during the entire event. Local Police responded to perform their investigation. Amtrak Management responded to assist

North County Transit District buses arrived to provide aid to Amtrak by accommodating customers from Train 566(02) and making all Amtrak station stops to San Diego, CA.

Once customers were detrained and the tracks were released. Train 573(02) coupled onto Train 566(02) and operated as a combo trainset back to Los Angeles, CA. As a result, Train 579(02) was canceled in its entirety. The 85 customers were accommodated on Train 581(02).

Train 573(02) was delayed east of the incident location.

BNSF Gallup Subdivision East of Winslow, AZ- Southwest Chief Service Disruption

confirmed water over the rails at MP 77.9, 80 miles east of Gallup, NM . Multiple freights were tied down with crews expired on hours of service between Laguna/MP 71.1 and Grants/MP 98.3 causing single tracking conditions over 100 miles. BNSF maintenance of way personnel responded to areas of potential weather of the rails to inspect. Substantial delays were incurred operating through the affected area.

27-FOI-00137 00000009136 "UNCLASSIFIED" 11/10/2026

Train 4(22), with 159 customers on board, arrived into Winslow, AZ at 9:42A-PT and held for open track. While holding in Winslow, and in anticipation of further delay, the crew performed a calendar day inspection. Once a route was open, Train 4(22) proceeded east incurring further delay at MP 253.4, holding for the recrew to arrive and conduct a job briefing. Upon completion of their job briefing, Train 4(22) proceeded east.

Train 3(22) was also delayed operating through the affected area by high winds, flash floods, and freight meets.

24OCT26: Due to the late operation of Train 3(22), the crew expired on hours of service holding in Flagstaff, AZ. Train 3(22) held at Flagstaff with pilots on board beginning at 1:55A-PT for the recrew to arrive from Train 4(23), arriving at approximately 4:30A-PT. Once the recrew arrived and conducted their job briefing, Train 3(22) proceeded west.

To support customers and provide service recovery on Train 4(22), complimentary food and beverage offerings were provided. All coach customers received complimentary snack packs, bottled water, and hot beverages. During lunch service, sleeping car customers received the regular lunch service in the Dining Car, while coach customers were provided complimentary beef stew, mashed potatoes, and beverages. During dinner service, sleeping car customers received the regular dinner service in the Dining Car, while coach customers were provided complimentary Salisbury steak, vegetables, and mashed potatoes.

Train 4(22) had five misconnections at Kansas City, MO to Train 318(24) that were provided an alternate bus to their final destination. Train 6(22) also provided aid to local customers on Train 4(22) that were boarding between Galesburg and Chicago.

24OCT26: Train 3(23), operating with engines 79/29, 9 coaches, and 153 customers, was stopped east of the Gallup, NM station due to severe weather resulting in water above the rail in multiple locations. Burlington Northern Santa Fe subsequently reported that there was no route available beyond Laguna (MP 71) due to flooding of the tracks and the adjacent highway. Reported flood damage included both main tracks under water with debris between MP 72.7 and MP 72.3, including approximately 800 feet of side scour on the Main Track 1 side; side scour and undercutting at a culvert near MP 72.4; water over a high-water detector bridge and both rails between MP 70.1 and MP 69.8; and water over both rails between MP 69.8 and MP 69.7, where inspection was not possible. As a result, Train 3(23) shoved back to Albuquerque, NM and arrived at 11:57P-MT. The train wye'd en route into the station and will return to its origin.

As a result of the service disruption, the following service adjustments were implemented:
- Train 3(23) arrived at Albuquerque, NM at 11:57P-MT, wyed enroute into the station, and operated back to Chicago, IL, returning customers to points of origination.
- Train 4(24), with 135 customers, wyed at Barstow, CA and operated back to Los Angeles, CA Union Station.
- Train 3(24), with 136 customers, reversed back to Kansas City, MO, wyed, and planned to return to its origin.

Due to crew availability in Kansas City, Train 3(24) held in Kansas City for the arrival of Train 4(23) and was coupled to operate as a combo set to Chicago, returning Train 3(24) customers to points of origination.
- Train 4(25) was canceled. No alternate transportation was provided.

25OCT26: Train 3(23) departed Albuquerque, NM, at 125AM-MT operating eastward back to Chicago. Train 3(23) was delayed at Fox/MP820.0, 15 miles east of Lamy, NM, on the BNSF Glorieta Subdivision, after operating through code line failure at E. Fox, the crew reported while operating through the switch, with it on hand, the switch handle popped up as train started into the switch. Train 3(23) was delayed due to possible switch damage and due to holding for a required recrew to arrive.

- Train 3(25) terminated in Kansas City, MO. No alternate transportation between Kansas City and Los Angeles.
- Train 4(25) was reinstated between Kansas City and Chicago only. Train 4(25) originated in Kansas City with no alternate transportation between Los Angeles and Kansas City.
- Train 4(27) cancelled entirely. No alternate transportation between Los Angeles and Chicago.

27-FOI-00137 00000009136 "UNCLASSIFIED" 01/10/2026

26OCT26: BNSF reported current weather conditions and further soil and ground degradation and scouring have delayed necessary repairs and pushed back track opening. Main Track 1 estimated back 300PM-MT Monday October 26th and No 2 estimated back at 1201AM-MT Tuesday October 27th. Due to the ongoing issues on the BNSF Gallup subdivision the following additional service adjustments were necessary:
- Train 3(26) cancelled entirely, no alternate transportation between Chicago and Los Angeles.
- Train 4(26) cancelled entirely, no alternate transportation between Los Angeles and Chicago.
BNSF advised an extremely large volume of freight traffic has been holding for open route and expect it to be heavily congested across the subdivision upon track opening.

27OCT26: A revised Main Track 1 estimate has been changed to "pending" due to a new washout that was identified at Milepost 50.2, with approximately 500 feet of side scour (erosion of the soil, rock, or ballast along the side of the railroad embankment (roadbed) caused by flowing water). Repair efforts are underway, with a ballast train placing material. Main Track Two between Laguna and Marmon is expected to reopen at 12:01 AM CT on the 27th under a 10 MPH speed restriction. BNSF has advised there are still a significant amount of Freight Trains tied down which will cause significant congestion through the area. Restoration efforts remain fluid due to changing water levels along the right-of-way.

- Train 3 (27) canceled in its entirety between Chicago and Los Angeles. No alternate transportation will be provided.
- Train 4(28) cancelled entirely, no alternate transportation between Los Angeles and Chicago.

29OCT26: Trains 3 and 4 continued to see heavy delays in the area due to ongoing repairs and congestion. BNSF advised to expect delays between 2 to 4 hours to continue over the next several days.

01NOV26: Trains 3(30) and 4(31) continue to receive delays account fleeting westbound trains on Main Track #2 and eastbound trains on main track #1 on the Gallup, Seligman and Needles Subdivisions.

02NOV26: Trains 3(31) and 4(01) continue to receive delays account fleeting westbound trains on Main Track #2 and eastbound trains on main track #1 on the Gallup, Seligman and Needles Subdivisions.
Moderate rainfall continues through the day. The Gallup Subdivision remains open, with one main closed for stabilization work. There were 43 trains on the subdivision.

UPRR Santa Barbara Subdivision North of Goleta, CA- Track and Time Authority

27-FOI-00137 00000009136 "UNCLASSIFIED" 11/10/2026

16OCT26: The UPRR placed engineering orders in effect beginning October 16th at 7:00A-PT instituting track and time authority on approximately 61 miles of territory on the Santa Barbara Subdivision between CO295, 4 miles north of Lompoc-Surf Station, and CO356, 2 miles north of Goleta, CA. Multiple trains were delayed operating through the affected area due to signal issues where crews operated at restricted speed and stopped to flag crossings.

17OCT26: In order to minimize customer delays due to this, the following Service Adjustments were implemented:

Train 761(17) and 765(17) were originated at Los Angeles, CA, no alternate transportation provided.
Trains 757/ 765/ 777(17-01NOV) Terminated Goleta, CA with alternate bus transportation provided to San Luis Obispo, CA.
Trains 774/ 786/ 794(17-01NOV) Originated Goleta, CA with alternate bus transportation provided from San Luis Obispo, CA.
Three busses were secured to operate each route, and did not make the Lompoc-Surf, CA station stop.

23OCT26: The operating plan was extended through at least Sunday November 1.

30OCT26: The operating plan was extended to Friday November 6th.

UPRR Alhambra Subdivision Los Angeles, CA to Palm Springs, CA - Scheduled M/W Work TWA 27-020

26OCT26:To accommodate infrastructure work between Los Angeles, CA and Palm Springs, CA, the Sunset Limited and Texas Eagle services will be adjusted as follows:

Train 1(31Oct, 7Nov, 14Nov) and Train 42(30Oct, 6Nov, 13Nov) will detour over the BNSF San Bernardino Subdivision between West Colton(UPRR Alhambra subdivision) and Soto(BNSF San Bernardino subdivision), bypassing Ontario, CA (ONA) and Pomona, CA (POS). Train 801(2Nov, 9Nov, 16Nov) was created for the detour between Riverside, CA (RIV) and Los Angeles, CA (LAX).

Train 2/422(1Nov, 8Nov, 15Nov) will detour over the BNSF San Bernardino Subdivision between Soto(BNSF San Bernardino subdivision) and West Colton(UPRR Alhambra subdivision), bypassing Pomona, CA (POS) and Ontario, CA (ONA). Train 802(1Nov, 8Nov, 15Nov) was created for the detour between Los Angeles, CA (LAX) and Riverside, CA (RIV). An Amtrak LAX pilot crew will pilot the train over the BNSF San Bernardino Subdivision. No alternate transportation will be provided to POS and ONA.
