Train 130(17) Metropark, NJ - Engine Failure

17MAR26: Train 130(17) operating with E/667 with 649 cars and 542 customers was disabled at Metro Park station without HEP due to the main circuit breaker on E/667 being open and unable to reset. As a result, 130(17) was cancelled at Metro Park and passengers were transferred to 98(16) and 172(17). The crew, with the assistance of an Amtrak Road Foreman, was able to reset the main circuit breaker after the passenger transfer was complete and the equipment was moved to New York for further inspection and disposition.

Train 119(17) was delayed departing New York due to turning off 112(17).

Train 192(17) was delayed departing Washington D.C due to removing engine 667 from the consist and replacing it with another motor. Engine 607 was scheduled to be added to the consist. The engine was added and then was found to have problems with the brake cylinder pressure. Engine 607 was wye'd in an attempt to correct the problem. This did not work and engine 607 was shopped for brake cylinder pressure. Engine 662 was utilized from inbound train 129(17). The engine was added to the consist and train 192(17) was able to depart the station.

Operating Highlights

Train 717(17) Bakersfield, CA - PTC Reverser Problems

18MAR26: Train 717(17), operating with locomotives E/C2012 and CC/90218, 5 cars, and 70 customers onboard, was delayed departing Bakersfield, CA due to PTC reverser faults on the lead locomotive. It was subsequently discovered that the reverser had been left in the cab car, preventing proper system initialization. Once the reverser was removed and PTC systems reset, Train 717(17) was cleared for movement and departed Bakersfield.

Train 50(17) Chicago, IL - Initial Terminal Delay - Engine Failure

18MAR26: Train 50(17) 26-FCI-00408 00000006282 UNCLASSIFIED 4/30/2026
delayed at Martin Luther King Station after locomotive E/309 failed to start. It was necessary to replace the unit, and locomotive E/368 was selected as the substitute. Once the consist was reassembled, a second issue was identified: car 69008 had inoperative toilets due to a frozen pipe. The decision was made to deadhead the car in line, and Mechanical subsequently released the train. After 101 customers boarded, Train 50(17) departed Chicago and continued its eastbound trip.

Train 580(17) San Juan Capistrano, CA - Commuter Train Interference

17MAR26: Train 580(17), operating with 191 customers onboard, was delayed at San Juan Capistrano Station (MP 197.3) on the Metrolink Orange Subdivision due to a disabled Metrolink commuter train (Metro 623) ahead on the single-track segment between San Juan Capistrano and San Clemente Pier. Metrolink initiated a rescue operation involving coupling a second set to double-draft the disabled equipment out of the area. During this operation, multiple Amtrak trains were held until the line was cleared, including:

Train 782(17) with 166 customers, held at Irvine (MP 185.1)
Train 785(17) with 215 customers, held at Oceanside (MP 226.4)
Train 584(17) with 76 customers, held at Irvine (MP 185.1)
Train 587(17) with 137 customers, held east of San Clemente Pier (MP 209.6)

Due to congestion and cascading delays, several service adjustments were made:

Train 586(17) was canceled, with customers accommodated on Train 588(17)
Train 591(17) was canceled, with customers accommodated on Train 593(17)
Train 782(17) turned for Train 595(17)
Train 584(17) laid over in San Diego for March 18th service

Once the rescue move was completed and the route was restored, the affected Amtrak trains were released to proceed.

Train 2(15) West of Houston, TX - Struck Semi

17MAR26: At 1108AM-CT 26-F0100408 20000006282E/154 UNCLASSIFIED 7 4/30/2026 with 93 passengers, 4 train and engine employees and 7 onboard services employees, struck a semi at South Cravens Road Crossing (DOT 743688E), MP17.44, 17 miles west of Houston, TX, on the UPRR Glidden Subdivision, in Fort Bend County. Initially there were no reported passenger injuries. One engineer was reported with minor injury upon impact; however did not require medical transport or attention on scene. The occupant of the semi truck was not injured. Lead E/154 sustained damage to the windshield and cables and trail E/190 with a damaged fuel tank and leaking fuel. Train 2(15) did not have HEP. Weather was reported as approximately 50 degrees and clear. Local authorities responded to the scene. Amtrak Superintendent and road foreman, Amtrak Police as well as Amtrak/UPRR mechanical and hazmat vendor responded to the scene. Amtrak environmental was notified.

As precaution due to the fuel leak on E/190 and smoke condition from the equipment, local responders safely evacuated passengers off the train to a nearby parking lot. One passenger reported an injury (PNR 5AAC23) and was transported to St. Luke's Hospital in Sugarland, TX. Due to no HEP and engine damage/fuel leak, Train 2(15) was terminated. Two Metro busses were secured and arrived on site at approximately 100PM-CT. Passengers boarded the Metro busses which departed the scene at approximately 135PM-CT to Houston, TX. Checked baggage remained in baggage car and was off-loaded at Houston for further transport downline once equipment arrived. Three ADA busses were secured at Houston for approximately 215PM-CT and accommodated passengers for the remainder of scheduled trip. Bus 1 and Bus 2 operated Houston to New Orleans express. Bus 3 made scheduled stops between Houston and New Orleans. Passengers were provided food items and beverages in Houston prior to boarding busses for the remainder of trip.

UPRR mechanical and hazmat vendor assisted in plugging fuel leak on E/190 and unit was drained prior to movement. UPRR freight engine E/UP7909 was added ahead of E/154, with E/190 dead in tow, & 7 cars, and utilized to deadhead the equipment east.

Train 710(17) Cancelled - Third Party Contractor Cab Car Failure

17MAR26: Train 710(17) was cancelled as a result of PTC issues (fault code "D11") on cab car C/8304. TASI mechanical forces were dispatched to the Oakland depot (MP 7.0/UPRR Niles Subdivision) to assist. Repairs could not be completed at-scene and decision was made to have the equipment return to the Oakland Yard and swap with the set assigned to Train 716(17).

Affected passengers already onboard the train at Oakland detrained and were accommodated on Train 528(17) to Emeryville where they were to rejoin the new equipment of 710(17). However, as a result of delays incurred dispatching 710(17)'s new equipment set from the yard, it was then decided to cancel the train in its entirety and all passengers were reaccommodated onto Train 712(17).

Once 710(17)'s equipment was released from Oakland Yard, it deadheaded to Bakersfield and turned to represent Train 719(17).

Train 5(16) East of Princeton, IL - Engine Failure

16MAR26: Train 5(16) at 00000006282 with 1 UNCLASSIFIED E/76 and E/201, 8 cars, and 208 customers onboard, was stopped approximately 19 miles east of Princeton, IL, at MP 86.5 on the BNSF Mendota Subdivision due to a verified hot bearing on locomotive E/201 at the L4 location. Upon inspection, the crew reported bearing temperatures exceeding 400 degrees and discoloration of the bearing cap, necessitating that the locomotive be set out of the consist. Locomotive E/201 was set out at Zearing Siding (MP 95.6) on the Mendota Subdivision. Head-end power was down for the duration of the movement. Once the consist was reconfigured and all requirements were met, Train 5(16) continued west without further incident. A replacement freight locomotive, BNSF 7889, was later added at Lincoln, NE to support continued operations. During the process of adding the freight unit, a broken Glad hand on E/76 was discovered requiring BNSF rapid responder to assist due to the onboard crew not being able to add the new hose. The threading on the female part of the pipe was inadequate. The rapid responder was able to take the additional piping off and replace with a longer hose.

Service recovery efforts were initiated onboard. Sleeper meal service continued without interruption, and coffee, tea, water, juice and beef stew were provided to coach customers, along with hot chocolate offered to all customers.

Train 25(17) Passenger Removal at Bay St. Louis, Mississippi – Improper Conduct

17MAR26, Passenger on PNR B65C19, traveling from Biloxi, MS to New Orleans, LA reportedly boarded without a valid ticket. The traveler was asked to either call reservations or make a cash purchase onboard. Finally, the traveler purchased a ticket, however it did not match her origin point. The traveler became argumentative when advised to correct the ticket and Bay St. Louis Police assisted with the removal. Amtrak Police notified.
