Train 75(17) Raleigh, NC - Engine Failure

17JUL26: Train 75(17) operating with locomotive 609, 12 cars and 198 customers was delayed at the initial terminal of Raleigh due to locomotive NC1979 being unable to start at the station. Raleigh mechanical contractors responded to the station and were able to restore the locomotive allowing train 75(17) to depart Raleigh.

<u>Train</u>	<u>Delay</u>	<u>Comment</u>
75(17)	26"	

Train 19(17) New York, NY - Initial terminal Delay - Servicing

17JUL26: Train 19(17) operating with locomotive 648, 10 cars and 159 customers was delayed at the initial terminal of New York due to a car issue in the yard. Deadhead car 62009 had an inoperable marker light and a braking issue at departure time. Car 62009 was removed from the consist and the equipment was positioned in the station where 159 customers boarded and train 19(17) was able to depart.

<u>Train</u>	<u>Delay</u>	<u>Comment</u>
19(17)	35"	

Train 97(17) New York, NY - Initial Terminal Delay - Servicing

17JUL26: Train 97(17) operating with locomotive 609, 12 cars and 198 customers was delayed at the initial terminal of New York due to needing 2 cars off inbound train 98(16) to fulfill the consist requirement due to lack of fleet availability. After the equipment was made up and the regulatory inspections and documentations were completed the equipment was positioned in the station where 198 customers were boarded and train 97(17) was able to depart.

<u>Train</u>	<u>Delay</u>	<u>Comment</u>

Train 137(17) Boston, MA - Initial Terminal Delay - Switches

17JUL26: Train 137(17) operating with locomotive 635, 8 cars and 212 customers onboard was delayed at the initial terminal of Boston due to switch failure of the 98 switches at Tower 1 and a late arrival of equipment off train 190(17). Signal maintainers responded and made repairs to the switch to allow train movement to resume within the terminal. Once repaired, train 190(17) equipment was moved around the loop and positioned in the station for train 137(17). The 212 customers boarded and train 137(17) was able to depart Boston.

<u>Train</u>	<u>Delay</u>	<u>Comment</u>
137(17)	55"	

Train 190(17) Mystic, CT - Injured or Sick Passenger

17JUL26: Train 190(17) operating with locomotive 635, 8 cars and 441 customers onboard was delayed at Mystic Station due to a passenger experiencing a medical emergency requiring the train to be met by EMS for assistance. Upon the arrival of EMS, the passenger was removed from the train and taken with EMS to a medical facility to be evaluated for care. After EMS and the passenger were off, train 190(17) was able to depart Mystic.

Train 98(17) Miami, FL - Initial Terminal Delay - Engine Failure

17JUL26: Train 98(17) 26-FOT-00803 00000008327 UNCLASSIFIED 163-272 7/21/2026 11 cars and 51 customers was delayed at the initial terminal of Miami due to a late release of equipment from the yard. Locomotive 337 was shopped off the inbound 97(15) requiring the 372 to be moved from 40(17) equipment to 98(17). After the locomotive was added the required regulatory inspections and documentation was completed the equipment was released by mechanical and placed in the station for passenger boarding. After the boarding process was complete train 98(17) departed Miami.

Train	Delay	Comment
98(17)	1'15"	

Train 40(17) Miami, FL - Cancelled - Engine Failure

17JUL26: Due to a lack of diesel locomotive availability in Miami with a shop count of 5 diesels, train 40(17) was cancelled in its entirety with no alternate transportation provided.

As a result of the cancellation of train 40(17), train 41(19) was cancelled in its entirety with no alternate transportation provided to balance the fleet.

Train 113(17) New York, NY - Initial terminal Delay - Servicing

17JUL26: Train 113(17) operating with locomotives 620-662, 9 cars, and 240 customers was delayed at the initial terminal of New York due to a late release from servicing. After Mechanical completed their regulatory inspections and documentation the equipment was released from the yard and positioned in the station. In New York Penn Station 240 customers were boarded and train 113(17) was able to depart.

As a result of the late arrival of train 113(17) into Washington the turn of the equipment caused an initial terminal delay to train 84(17).

Train 14(16) North of Chemult, OR - Fatal Trespasser Strike

17JUL26: Train 14(16) with engines 337, 313, 9 cars, and 227 customers onboard, struck a vehicle at milepost 505.65, 3 miles north of Chemult station, in Chemult, OR, Klamath county on the UPRR Cascades subdivision. The strike was a fatality. The vehicle was under the train and head end power was shut down for approximately 50 minutes as a precaution due to an odor of gasoline. The weather outside was 86 degrees. The strike occurred at DOTX 749020J Corral Springs Road public crossing equipped with 2 crossbucks and an ENS sign. The train was on the rails intact. There were no reported injuries to the crew or the customers. UPRR responders, local authorities, and local management responded to the scene. All attempts to source alternate bussing for passengers were unsuccessful. Once the vehicle was removed from under the train, and investigation was complete, Train 14(16) was able to proceed north.

Due to the lengthy delay the train was further delayed at Portland, OR in order to complete a calendar day inspection of the equipment, and to set out engine E/337.

Train 8/28(15) East of Grand Forks, ND - Engine Failure

17JUL26: Train 8/28(15), operating with engines 356/327, 10 coaches, and 170 customers was delayed 35 miles east of Grand Forks, ND, on BNSF Hillsboro subdivision, due to eng 356 having an Io52 fault. That engine fault caused the train to go into emergency. The crew was able to recover and get back on the move but then went into emergency a second time 6 miles later. The crew was then instructed by Road Foreman to set up the lead loco as a control stand and use the trail loco, E/327 as its only power. After this was set up train 8/28(15) was able to get back on the move. The IO52 fault caused the train to go into emergency for a 3rd time 8 miles later. The decision was then made to have the crew flat switch the locos, putting E/327 in the lead and E/356 in the trail. This allowed the crew to shut down E/356 and deadhead it in tow.

8/28(15) had further issues with engine 356 both east and west of Staples, Minnesota. The engine caused the train to go into emergency 2 more times. The crew worked with CNOC mechanical and Siemens tech to first reconfigured the engines but that did not resolve the issue. After going into emergency again they were able to resolve the issue and train 8/28(15) was able to proceed.

Train 22(16) North of Little Rock, AR - Freight Train Interference

17JUL26: Train 22(16) 26-FOT-00503 000000083271 engine 624311, 7/21/2026, 101 coaches and 101 customers, was delayed 53 mile north of Little Rock, AR, on UP Hoxie subdivision, due to meeting and following UP8028.

UPRR Del Rio Subdivision West of San Antonio, TX - Weather

16JUN26: Union Pacific Railroad reported multiple washouts west of San Antonio on the Del Rio Subdivision. Maintenance personnel were dispatched to the affected area; however, no estimated time of arrival was available at the time of the report. As a precautionary measure, Train 1(15)/421(14) was held at San Antonio pending further information regarding track conditions and the availability of any open routes.

Subsequent inspections confirmed at least one washout in the Yucca Siding area between Mileposts 285 and 288, along with multiple locations where water had overtopped the rail. Track inspectors continued evaluating the extent of the damage while maintenance equipment was assembled for repair efforts. A ballast train was positioned in San Antonio to support recovery operations. Based on initial assessments, UPRR estimated that the affected tracks would remain out of service for a minimum of eight hours, with the expected reopening time subject to revision as inspections progressed.

As a result of the two confirmed washouts west of San Antonio and the widespread flooding conditions through the area, the following service adjustments were implemented for the Sunset Limited. Train 1(15)/421(14) were cancelled between San Antonio and El Paso and train 2/422(15) were cancelled between El Paso and San Antonio. A bus bridge was established between the two cities to accommodate all affected customers. Train 1(15) equipment was turned in San Antonio and operated as train 2(15) to New Orleans. Train 2/422(15) equipment was turned in El Paso and operated as train 1(15)/421(14) to Los Angeles.

Four express buses representing train 1(15)/421(14) departed San Antonio at 1140AM-CT and continued to El Paso. An additional bus making local stops departed shortly after. Additionally, three express buses and one local bus were secured to represent train 2/422(15) and departed El Paso at 542PM-MT enroute to San Antonio. As part of the service recovery plan, meal boxes were provided for the affected customers with all buses making a meal stop enroute. Once all buses arrived on location in El Paso, customers and baggage were loaded onto the train, and train 1(15)/421(14) departed El Paso at 900PM-MT, 7 hours, and 10 minutes late.

Further assessments by UPRR revealed that the situation was more extensive than initially reported. Railroad personnel confirmed a total of seven washouts across the affected territory, along with multiple locations experiencing power outages and track occupied light indications. Several additional locations were identified with substantial water over the rail. Inspectors were unable to access approximately 33 miles of track, preventing a complete evaluation of the effected territory. Based on the expanded scope of the damage and accessibility challenges, UPRR revised its estimates and projected a 48-hour service outage, with an estimated time of restoration of July 19 at 200PM-CT. Considering the information and to support continued service recovery efforts, alternate transportation was being sourced to establish a bus bridge operation for trains 2/422(17) and 1(18)/421(17) between the affected locations.

A final report on July 16 revealed a total of 12 washout locations totaling .53 miles of track repairs with no estimated time for track opening. Crews continued to work diligently on repairs with 74 ballast cars in position. It would be necessary to install 120 ties at MP 293.35.

UPRR Desoto Subdivision Washout - North of Poplar Bluff, MO

10JUL26: At 3:30AM-CT ~~26-JUL-00603~~ ~~60000008327~~ ~~UNCLASSIFIED~~ ~~7/21/2026~~ the UPRR DeSoto Subdivision at Annapolis (MP108), located 57.6 miles north of Poplar Bluff, MO (MP165.6). As a result, Train 22(09) arrived at the Poplar Bluff station at 4:04AM-CT with 144 customers onboard and held for disposition.

A Union Pacific Manager of Track Maintenance responded to the washout location at 4:20AM-CT and provided a preliminary estimated track restoration time of 2:00PM-CT. A detour route was available via the Chester Subdivision between Poplar Bluff and St. Louis, bypassing Arcadia. No customer impact occurred at Arcadia, as no customers were scheduled to board or detrain at that location. Union Pacific pilot crews went on duty at 6:10AM-CT and responded to the train, arriving at 7:00AM-CT. Upon the pilots' arrival, Train 22(09) departed Poplar Bluff at 7:21AM-CT and proceeded over the detour route via the Chester Subdivision.

At 12:00PM-CT, Union Pacific reported that floodwaters were not expected to begin receding until Saturday, July 11. Following the water's recession, a track inspection would be required before rail operations could resume through the area. As a result:

-Train 21/421(10) detoured via the Chester Subdivision with 6 on / 0 off at Arcadia. The affected six customers were notified and advised to rebook on the next available departure.

-Train 22(10)/422(08) detoured via the Chester Subdivision with 0 on / 5 off at Arcadia. A sprinter van transported passengers from Saint Louis, MO back to Arcadia, MO.

11JUL26: Union Pacific reported that the floodwaters were not expected to recede until Sunday, July 12th. As a result, Trains 22(11) and 21(11) were also routed via the Chester Subdivision detour with no alternate provided to/from Arcadia.

12JUL26: UPRR revised eto was updated to 930AM-CT 12JUL. Due to no available UPRR pilots to support the detour, Train 22(11), with 109 customers, was delayed at Poplar Bluff, MO, holding for dispo of the route ahead and then further delayed through the area. Train 22(11) was delayed due to the 10MPH speed restriction through the washout area and also signal issues between MP107 and MP92. Train 21/421(12) was also delayed operating at 10MPH through the washout site.

13JUL26: UPRR 10MPH slow orders remained in effect between MP95 and MP110. Trains 22(12)/422(10) and 21(13) were delayed operating through the affected area.

Heat Dome affect Entire Network - Weather

08JUL26: A heat dome evolving in the west will be bringing high temps in excess of 100° throughout the country. It will begin to expand as the week goes along and shift to the east affecting the entire nation. The first few days will be focused from the southwest through the Rockies to the Great Plains. It will then shift east affecting the Upper Midwest through the Northeast. Trains will be restricted to high temperature restriction. The high temperatures, there will be increase of severe thunderstorms and high winds.

was deadhead to New Haven, CT where Train 55(15) originated.
 Three buses were secured for the 119 customers for Train 56(14) between Springfield to St. Albans.
 Buses were secured for 221 customers for Train 55(14) between St. Albans and New Haven.

14JUL26: Additional Cancellations on the Northeast Corridor impacting Regional and Acela services were put into place to protect overall service:
 Northeast Regional Trains 84, 119, 173, 176, 193, 196, (15-16)
 Acela Trains 2152, 2154, 2165, 2167, 2193 (15-16)

17JUL26: Piedmont Service adjustments for NS heat orders: trains 77(17) and 78(17) cancelled in their entirety with alternate busing.

Midwest State Supported Service Adjustments - Equipment

08JUL26: The following Midwest State Supported Service Adjustments are in effect due to equipment availability issues in Chicago, IL:

10JUL26: Additional adjustments have been added to the schedule through 12JUL.

12JUL26: Lincoln and Wolverine service adjustments extended through 13JUL.

13JUL26: Lincoln and Illini/Saluki service adjustments in effect on Tuesday July 14th.

14JUL26: Illini/Saluki service adjustments extended to Wednesday July 15th.

Carl Sandburg Service:

- Trains 381(09-10) cancelled entirely, with alternate transportation for customers between Chicago and Quincy, IL.

- Trains 382(09-10) cancelled entirely, with alternate transportation for customers between Quincy and Chicago.

Lincoln Service:

- Trains 305(08-13) cancelled entirely, with alternate transportation for customers between Chicago, IL and St. Louis, MO.

- Trains 302(09-14) cancelled entirely, with alternate transportation for customers between St. Louis and Chicago.

Wolverine Service:

- Trains 350(11-13) cancelled entirely, with alternate transportation for customers between Chicago, IL and Pontiac, MI.

- Trains 355(11-13) cancelled entirely, with alternate transportation for customers between Pontiac, MI and Chicago, IL.

- Trains 350(16) cancelled entirely, with alternate transportation for customers between Chicago, IL and Pontiac, MI.

- Trains 355(16) cancelled entirely, with alternate transportation for customers between Pontiac, MI and Chicago, IL.

Illini/Saluki Service:

- Train 391(14-15) cancelled entirely, with alternate transportation for customers between Chicago, IL and Carbondale, IL.

- Train 392(14-15) cancelled entirely, with alternate transportation for customers between Carbondale and Chicago.

12JUL26: One of the busses providing alternate transportation for Train 302(12), Bus 3, was involved in an auto accident at the Bloomington-Normal, IL station. There were four passengers onboard at the time. No injuries were reported. The station secured transportation for the affected passengers.

Wolverine Track Work-Scheduled M/W Work

-26-FGT00693

100000008321

"UNCLASSIFIED"

7/21/2026

To accommodate the above outlined infrastructure work, Amtrak's Wolverine Service will be adjusted as follows:

* Trains 351, 353, and 355 (20Jul-24Jul, 27Jul-31Jul, 3Aug-7Aug) will bypass TRM. Passengers will be redirected to ROY or PNT as alternate options.

* Trains 350, 352, and 354 (20Jul-24Jul, 27Jul-31Jul, 3Aug-7Aug) will bypass TRM. Passengers will be redirected to ROY or PNT as alternate options

WBS#: B.TR.100150.6897

29JUN26: BNSF tie gangs will perform work on the Brookfield Subdivision between Macomb, IL/MP202.3 and Colchester/MP210.7, Monday July 6th through Friday July 10th and Monday July 13th through Friday July 17th.

14JUL26: Track was extended one additional week, Monday July 20th through Friday July 24th.

To accommodate this infrastructure work, Amtrak's Carl Sandburg service adjusted as follows:

- Train 382(06JUL-10JUL), Train 382(13JUL-17JUL) and Train 382(20JUL-24JUL) will originate at Galesburg, IL, with Bus 3382 as alternate transportation between Quincy, IL and Galesburg. Bus 3382 will operate 1-hour earlier departing Quincy at 430PM-CT and Macomb at 519PM-CT.

- Train 381(06JUL-10JUL), Train 381(13JUL-17JUL) and Train 381(20JUL-24JUL) will terminate at Galesburg, IL, with Bus 3381 as alternate transportation between Galesburg and Quincy.

WBS#: B.TR.100150.6826

CPKC Watertown Subdivision - Scheduled M/W Work 26-047

20APR26: CPKC has tie replacement trackwork on the Watertown Subdivision starting April 20th through June 21st between Columbus, WI and Milwaukee, WI. In order to accommodate the infrastructure work, Amtrak's Borealis Service is adjusted as follows:

- Train 1333 (20Apr-21Jun) will have 12-minutes of recovery added at Columbus, 5-minutes of recovery added at Wisconsin Dells, and will arrive at St. Paul 15-minutes later at 6:56pm
- Train 1340 (20Apr-21Jun) will operate 10-minutes Earlier between St. Paul and Milwaukee, departing St. Paul at 11:39am, and will operate 5-minutes Later between Milwaukee and Chicago, departing Milwaukee at 5:49pm.

22JUN26: CPKC has tie replacement trackwork on the River Subdivision starting June 22nd through September 20th between St. Paul, Minneapolis and La Crosse, Wisconsin. In order to accommodate the infrastructure work, Amtrak's Borealis Service is adjusted as follows:

- Train 1333 (22Jun-20Sep) will arrive at St. Paul-Minneapolis 20-minutes later at 7:01pm.
- Train 1340 (22Jun-20Sep) will depart St. Paul-Minneapolis 20-minutes earlier at 11:29am, will depart Red Wing 10-minutes earlier at 12:27pm, and return to normal schedule departing Winona.

WBS#: B.TR.100150.6620

CPKC River Subdivision - Scheduled M/W Work 26-067

22JUN26: CPKC has tie replacement and surfacing scheduled on the River Subdivision between St. Paul, MN and La Crosse, WI starting Monday, June 22nd through Sunday, September 20th. To accommodate the outlined infrastructure work, Amtrak's Borealis Service has been adjusted as follows:

- Train 1333(22JUN-20SEP) will arrive to St. Paul 20 minutes later at 7:01PM.
- Train 1340(22JUN-20SEP) will depart St. Paul 20 minutes earlier at 11:29AM, will depart Red Wing 10 minutes earlier at 12:27PM, and return to normal schedule departing Winona.

WBS Element B.TR.100150.6620 has been issued.

CNRR McComb Subdivision - Scheduled M/W Work 26-066

04JUN26: Canadian National Railroad has tie replacement scheduled on the McComb Subdivision between MP736 and MP756.2 starting Monday, June 22nd through Friday, July 31st. To accommodate the infrastructure work, Amtrak's City of New Orleans Service will be adjusted as follows:

09JUL26: This outage was originally scheduled to conclude on Friday July 31st, but will now conclude 2-weeks Earlier on Friday July 17th. The following adjustments are now in place.

- Train 59(21Jun-15Jul) will depart Chicago 2-hours Later, at 10:05pm, and will operate 2-hours Later between Chicago and New Orleans.
- Train 1059 (16Jul) will operate in lieu of Train 59(30Jul), departing Chicago 2-hours Later, at 10:05pm, and will operate 2-hours Later between Chicago and New Orleans.
- Train 58(22Jun-16Jul) will depart New Orleans 2-hours Later, at 3:45pm, and will operate 2-hours Later between New Orleans and Chicago.
- Train 1058(17Jul) will operate in lieu of Train 58(31Jul), departing New Orleans 2-hours Later, at 3:45pm, and will operate 2-hours Later between New Orleans and Chicago.

WBS#: B.TR.100150.6732

BNSF Southwest Chief Service - Scheduled M/W Work 26-049

13APR26: BNSF will perform trackwork on multiple subdivisions along the entire Southwest Chief route between Los Angeles, CA and Chicago, IL, May 31st, 2026 through October 9th, 2026. Multiple rail, tie, surfacing and undercutting gangs will work multiple curfews throughout this period. To accommodate this infrastructure work, the following Amtrak's Southwest Chief service adjustments are in effect:

- Train 4(29MAY-07OCT) will operate on an adjusted schedule as follows:

Depart Los Angeles, CA twenty-four minutes Earlier at 4:55PM-PT,

Depart Albuquerque, NM one minute Earlier at 11:31AM-MT,

Depart Kansas City, MO twelve minutes Later at 7:13AM-CT,

Depart Naperville, IL forty-seven minutes Later at 2:40PM-CT,

Arrive at Chicago, IL, forty-seven minutes Later at 3:29PM-CT.

Note: Naperville, IL will be a "discharge only" stop and the train may depart ahead of schedule.

- Train 1003(29MAY) and Train 3(30MAY-07OCT) will operate on an adjusted scheduled as follows:

Depart Chicago, IL fifty-five minutes Earlier at 1:30PM-CT,

Depart Kansas City, MO forty minutes Earlier at 9:37PM-CT,

Depart Albuquerque, NM twenty minutes Earlier at 3:14PM-MT,

Depart Fullerton, CA fifteen minutes Later at 7:18AM-PT,

Arrive Los Angeles, CA fifteen minutes later at 8:12AM-PT.

Note: Fullerton, CA will be a "discharge only" stop and the train may depart ahead of schedule.

WBS#: B.TR.100150.6626

Metra C&M Subdivision - Scheduled M/W Work 26-055

16MAY26: Metra has trackwork scheduled on the C&M Subdivision at Western Avenue - Rondout starting on May 16th through November 1st on Saturday and Sundays only. In order to accommodate the outlined infrastructure work, Amtrak's Hiawatha Service will be adjusted as follows:

Northbound

- Train 331 (Saturday and Sunday) will arrive at Milwaukee 10-minutes Later at 10:04am
- Train 335 (Saturday and Sunday) will arrive at Milwaukee 10-minutes Later at 2:44pm

Southbound

- Train 330 (Saturday ONLY) will arrive at Chicago 10-minutes Later at 8:07am.
- Train 332 (Saturday and Sunday) will arrive at Chicago 10-minutes Later at 9:44am
- Train 334 (Saturday and Sunday) will arrive at Chicago 10-minutes Later at 12:39pm
- Train 336 (Saturday and Sunday) will arrive at Chicago 10-minutes Later at 2:44pm
