Train 93(24) Mystic, CT - Weather

24DEC25: Train 93(24) operating with E/640, 9 cars and 483 passengers onboard, stopped at the Mystic, CT station on Amtrak NHB Main Line with no headend power due to a tree in the wires at MP 130 approximately 2 miles south of the station at 1049A-ET. The power director was notified. The temperature was approximately 40 degrees, the train was on the station platform allowing passenger an opportunity to go into the station. Trainmasters reported to the scene and ET was notified. ET arrived on the scene at approximately 1135A-ET, the track was taken out of service, while service recovery was performed onboard the train. Diesel trains were dispatched from New Haven, CT and Boston, MA with an eta of 1230P-ET. A bucket truck was dispatched to the scene and arrived at School St./MP 131 at approximately 1200P-ET and had the tree cut down by 1215P-ET. ET re-energized between Groton/MP 124 to High/MP 142 providing power to the train which was at the Mystic Station/MP132. There was no power on track 1 between Liberty/MP 157 and High/MP 142, trains had to run-around. Train 93(24) departed Mystic Station at 1251P-ET operating 2 hours and 5 minutes late. At 353P-ET, Track equipment cleared all tracks between Liberty and High Street, good for normal operation.

Due to the outage, trains were delayed in and out of Boston, MA.

Train 14(24) North of San Luis Obispo, CA UPRR Imposed Flash Flood Warnings

24DEC25: The UPRR issued flash flood warnings to train 14(24) operating North of San Luis Obispo due to severe rains. The affected area spans from San Luis Obispo - MP 248.00, Coast Subdivision of the Union Pacific Railroad through to MP 157.00, North King City - 91 miles. While operating through the area trains were required to slow to where the Engineer can stop short of any standing water, paying attention to bridges and culverts. Once clear of the affected area train 14(24) continued at track speed.

Train 14(24) was further delayed due to signal outages caused by the severe weather in the area between Oxnard, CA and San Jose, CA. There were issues with the crossings as well as signals throughout the area.

24DEC25: At approximately 12:00 PM, Train 11(24) (UNCLASSIFIED) (1/5/2026) struck with locomotive AMTK/301 and AMTK/338 with 9 cars struck and fatally injured a trespasser in Oregon City, Oregon, Clackamas County. The incident happened at the north end of Oregon City Station MP 756.33 of the Union Pacific Railroad, Brooklyn Subdivision, 15 miles south of Portland station. There were no reported injuries to 264 passengers or crew, and no reported damage to the train. Locomotive AMTK/301 provided Head end Power for the duration [of the incident. The weather was reported as light rail with a temperature of 48 °F degrees. Track speed is 55mph. The data recorder was downloaded at scene. The Engineer and Conductor were granted trauma relief at the scene. Local authorities including Clackamas County Fire Dept and Oregon City Police Dept. investigated the incident. Portland Assistant Superintendent and Road foreman responded to assist the investigation. Once the investigation was completed and relief crew boarded, train 11(24) was released and continued to Salem. The incident closed the tracks for over 2 hours, causing heavy congestion in the area.

Service Recovery: Complimentary snacks, hot beverages and bottled water available to passengers.

Amtrak Police and EAP advised.

Train 712(24) East of Martinez, CA - Locomotive Shutdown - Loss of Head End Power

24DEC25: Train 712(24) -operating with cab car CDTX/6963 & 6 Cars being pushed by CDTX/2006 - was delayed 8 miles east of Martinez, when locomotive CDTX/2006 stopped providing Head End Power. The train stopped on the mainline at Port Chicago, MP 39.1, Tracy Subdivision of the Union Pacific Railroad. With telephone help from technicians at Oakland Maintenance Facility - the crew were able to power down and back up (in sequence) circuit breakers to restore power. Head End Power was off for approximately 19 minutes. There were 199 passengers on board. The ambient temperature was 60°F. Gold Runner services offer all passengers complimentary snacks and canned soft drinks. After the required safety tests were completed, the train resumed to Antioch.

UPDATE: The train experienced intermittent Head End Power failures thru the journey. At Merced station, the crew were advised to 'short-loop' the train behind the locomotive and power down strategic cars. This restored Head End Power allowing the train to resume.

UPDATE: Locomotive CDTX/2006 was unable to provide Head End Power for equipment turn 703(24) in Bakersfield leading to the following equipment manipulations:

Train 714(24) Turns for 703(24) in Bakersfield - Delayed

Train 711(25) Cancelled (equipment from 712(24) deadhead to Oakland for repairs) - Passengers advised to use either train 701(25) or 713(25) depending on destination.

24DEC25: Train 770(24) 26-FOI-00217 d0000006565 at "UNCLASSIFIED" Urban 1/5/2026 MP 367.3/UPRR Santa Barbara Subdivision, waiting on a fallen tree to be cleared off the tracks ahead at MP 378.25. This was a result of severe weather (rain/wind) moving through the region. As a result of the ongoing delay, the following service adjustments were implemented to Pacific Surfliner service:

-Train 770(24) A bus bridge was established Santa Barbara to Moorpark using 3 charter buses. Buses made all intermediate stops. At Moorpark, passengers boarded equipment (turned off Train 761(24)) which operated to Los Angeles. At Los Angeles, this trainset terminated and passengers continuing south transferred to the next available service, train 580(24). Equipment from 770(24) - from Goleta - turned in Los Angeles for 785(24) Los Angeles thru Goleta.

-An "on-time" section of 770(24) operated Los Angeles to San Diego using equipment originally assigned to Train 572(24).

-A backup set of equipment (Comet equipment) was used to operate Train 572(24)/785(24).

-A bus bridge for Train 761(24) was established Moorpark to Santa Barbara using 3 charter buses (same buses used for 770(24) passengers from Santa Barbara). Buses made all intermediate stops. At Santa Barbara, passengers boarded equipment (turned off Train 770(24)) which operated to San Luis Obispo.

Train 774(24) was delayed for flash flood warnings and removal of trees from the tracks at MP 378.25.

Train 785(24) was operated using Comet equipment (turning from 572(24)) this was replaced in Los Angeles turning equipment from 770(24). The north section was delayed in Los Angeles waiting for passengers to arrive on the south section from San Diego.

Train 586(24) Cancelled - Passengers to 790(24)

Train 587(24) Cancelled - Passengers to 591(24)

Train 11(23) was delayed due to signal issues and train congestion between Santa Barbara, CA and Oxnard, CA.

Train 2/422(24) was delayed departing Los Angeles, due to holding for 11(23) with 24 connecting passengers.
