Train 712(25) Fresno, CA - Trespasser Incident

25DEC25: At 2:24PM-PT, 261FOR00217 712(25) 00000005564 oper UNCLASSIFIED th ca 1/5/2028 -equipped cab car C/90278 + 5 cars + locomotive E/C2123 at rear, struck a trespasser on a bicycle in Fresno, CA inside of the crossing at Shields Ave, MP 1001.22/BNSF Stockton Subdivison, 3.12 miles west of the Fresno depot. This was a fatality. There were no injuries amongst the passengers (83) or crew. The crew requested relief. There was no reported equipment damage and head-end power remained up and running. The crossing, DOT #028580A, is protected by gates, bells and flashers - all were operational at the time of the incident. Posted track speed is 79MPH. Outside temperature was 57F and cloudy. Local EMS, fire, police, BNSF Management and Amtrak Management responded to the scene. Amtrak Police and EAP notified.

Train was released and on-the-move at approximately 3:50PM-PT. The current crew advanced the train into the Fresno depot where it was met by the relief crew.

As a result of delays to the relief crew meeting Train 712(25) at Fresno, all passengers onboard 712(25) transferred to Train 714(25). Train 714(25) then operated ahead of 712(25) into Bakersfield. At Bakersfield, Train 714(25) equipment turned to represent Train 703(25).

14(24)	42"	

Palm Springs, CA Closure - High Winds

13JAN25: Palm Springs Station, located at MP 588.2 on the Union Pacific Railway Yuma Subdivision, is subject to temporary intermittent closures caused from high winds creating a build up of sand in the switches to enter Garnet Siding. This sand build up prevents the switches from being lined, and causes the internal gear mechanism of the switch to cease up. This prevents train crews from hand lining the switch and being able to access the station platform. Standing policy states that when this occurs trains will bypass the station at Palm Springs and passengers will be transported to the next stop of Ontario, CA or Yuma, AZ, no alternate transportation will be provided.
