Train 704(14) East of Corcoran, CA - Unoccupied Vehicle Strike

14AUG26: at approximately 9:48PM-PT Train 704(14) with CC/90218, 7 cars, and E/C2001, struck an unoccupied vehicle at Ave 88 /MP938.881 on the BNSF Bakersfield Subdivision, 11.92 miles East of Corcoran, CA station near Alpaugh, in Tulare county. This occurred on single main track at the DOT crossing #028324J equipped with advance warning signs, 2 quad gate arms, 2 mast mounted flashing lights and 2 bells. No injuries were reported to the crew or 53 passengers onboard. No reported damage to the equipment. The Conductor and Engineer requested relief. The Assistant Conductor was willing to take the train upon release. Local weather was 80 degrees. Local police and fire responded to the location. The rear portion of the vehicle remained lodged under the train, causing a fuel leak and strong gasoline odor; HEP was shut down as a precaution. Train 718(14) was also delayed, holding at Corcoran during this time. Once the investigation was complete and tracks released, the crew advanced the train to Allensworth/MP933.2, where 718(14) met them in order to couple and proceed into Bakersfield. Anticipating an extended delay due to freight congestion in the area, both trains 704(14) and 718(14) were terminated and two busses were secured to bring passengers into Bakersfield. These were the same two busses that would normally connect passengers at Bakersfield to Los Angeles, and they continued their normal route to LAX after dropping passengers at BFD.
