Multiple Trains - PW Line Catenary Damage - Weather

01JUL26: Multiple trains were delayed on the Amtrak PW Line due to a damaged catenary wire west of Aberdeen resulting in single tracking operation between Gunpow and Biddle.

1:12 pm-et crew of train 2112(01) reported a broken hanger and low wire on the PW Line at River Interlocking. A hold was placed on the no.1 track at river and ET was notified.

1:30 pm-et ET confirmed wires down on no.1 and no.2 track at River, hold was extended to include both tracks. Track car was dispatched out of Baltimore for repairs.

2:09 pm-et "A" track, no.1 and no.2 tracks were placed on ET hold for repairs.

2:35 pm-et ET Foreman placed "A" no.1 and no.2 tracks OOS for catenary inspections.

2:42 pm-et ET Foreman identified a broken steady span fouling the no.2 track at River with numerous hangers broken and gave an estimate of 5pm-et for repairs to be completed.

6:40 PM-ET All Catenary repairs completed at River interlocking. Tracks returned to normal operation.

Train 138(01) East of Petersburg, VA - Vehicle Accident

01JUL26: Train 138(01) with locomotive 206, 7 cars and 107 customers onboard was delayed 28 miles east of Petersburg at MP 46 on the NS Norfolk division due to a vehicular accident adjacent to the railroad right of way. A tractor trailer struck a VA DOT work crew performing roadway repairs resulting in the semi becoming engulfed in flames. Due to the location of the accident the local authorities placed a hold on rail traffic while the scene was stabilized and the fire was contained. Additionally, multiple employees involved in the accident were required to be airlifted to seek immediate medical care. Once the immediate medical needs were met and the fire was under control the police hold was lifted allowing train operations to resume.

Train 21(01) North of Joliet, IL - Debris Strike

01JUL26: Train 21(01), E/53-E/58 & 7 cars, with 230 customers, was delayed at MP33.8, 4 miles north of Joliet, IL, on the CN Joliet Subdivision, due to striking debris. The debris caused the hose to hang low which resulted on the hose being dragged until there was a hole in it. The crew then had to replace the air hose. Once the air hose was replaced and the necessary brake tests were performed, train 21(01) was able to proceed.

Train 517(01) North of Bellingham, WA - Animal Strike

01JUL26: Train 517(01), CC/90340-4 cars-E/186, was delayed at MP 103.5, 10 miles north of Bellingham, WA, on the BNSF Bellingham Subdivision after going into emergency after striking an animal. There were no reported injuries to the crew or the 138 customers on board. Due to the strike, there was an air hose separation between CC/90340 and C/48182. Head end power (HEP) was briefly down while the crew worked to resecure air hose. The ambient outside temperature was 60 degrees and cloudy. Once the air hose was secured, a brake test was done and Train 517(01) proceeded south.

City of New Orleans Service Disruption

27JUN26: Trains 58(27) and 59(28) were cancelled in their entirety after Mechanical forces in New Orleans identified multiple wheel defects during inspection of Train 59(25)'s inbound equipment, requiring 18 wheel set replacements. The defects were traced to a suspected rail issue narrowed to down between Carbondale, IL and Yazoo City, MS. Chicago inspected Train 390(27)'s inbound equipment to which no defects were found which helped to narrow down the location. CN track inspectors were deployed to conduct a full inspection with a consensus of the rail conditions expected later that evening. As a precaution, sales for Trains 59(27) and 58(28) were shut down.

Train 59(26) was stopped at Yazoo City, MS for inspection, where multiple wheel defects were identified on the Fireman side of cars 31025, 34028, 34014, and 33026. The same side as the defects found on Train 59(25)'s inbound equipment. The train was subsequently terminated at Jackson, MS after CN Mechanical responded and deemed the equipment not fit to proceed to New Orleans. Efforts were underway to secure alternate transportation for the 210 affected customers, while no alternate transportation was being provided for downline customers. Service recovery measures were enacted, including the distribution of snack packs and water, and customers remained in good spirits at the time. Amtrak's New Orleans Trainmaster and New Orleans Mechanical responded to Jackson, as well as CN Mechanical. The train 59(26) equipment was declared unsafe to move and was tied down on main track one at Jackson Station.

The following service adjustments were put into effect:

- Train 58(27) was cancelled in its entirety with no alternate transportation.
- Train 58(28) was cancelled in its entirety with no alternate transportation.
- Train 59(27) was cancelled in its entirety with no alternate transportation.
- Train 59(28) was cancelled in its entirety with no alternate transportation.

28JUN26: Due to lack of available equipment, the City of New Orleans service adjustments were extended through 29JUN as follows:

- Train 58(29) cancelled entirely, no alternate transportation between New Orleans and Chicago.
- Train 59(29) cancelled entirely, no alternate transportation between Chicago and New Orleans.

29JUN26: Due to lack of available equipment, the City of New Orleans service adjustments were extended through 30JUN as follows:

- Train 58(30) cancelled entirely, no alternate transportation between New Orleans and Chicago.
- Train 59(30) cancelled entirely, no alternate transportation between Chicago and New Orleans.

There were 26 enroute connecting passengers at Chicago impacted by the ongoing City of New Orleans service adjustments. These passengers were reaccommodated on Train 21/421(28) Chicago to Longview, TX, and then on thruway bus 6021(29) to Houston. As a result of accommodating these passengers, Train 21/421(28) was over capacity in coach by 26 seats between Chicago and St. Louis, MO. One supplemental bus was secured and operated Chicago to St. Louis express to alleviate the over capacity condition.

29JUN26: Due to the ongoing equipment availability issue, the service adjustments were extended through 30JUN.

30JUN26: Due to the ongoing equipment availability issue, the service adjustments were extended through 01JUL.

01JUL26: Due to the ongoing equipment availability issue, the service adjustments were extended through 03JUL.

Palm Springs, CA Closure - High Winds

13JAN25: Palm Springs Station located on MP 588.2 of the Union Pacific Railway Yuma Subdivision, is subject to temporary intermittent closures caused from high winds creating a build up of sand in the switches to enter Garnet Siding. This sand build up prevents the switches from being lined, and causes the internal gear mechanism of the switch to cease up. This prevents train crews from hand lining the switch and being able to access the station platform. Standing policy states that when this occurs trains will bypass the station at Palm Springs and passengers will be transported to the next stop of Ontario, CA or Yuma, AZ, no alternate transportation will be provided.

Maintenance of Way Highlights

BNSF Ottumwa Sub - Scheduled M/W Work 26-072

26JUN26: BNSF has bridge deck replacement trackwork scheduled on the Ottumwa Subdivision Monday, June 29th from 8:00AM to 10:00PM between Osceola, IA and Creston, IA. To accommodate the infrastructure work, Amtrak's California Zephyr Service has been adjusted as follows:

- Train 6(27JUN) will operate as Train 1006(27JUN) and will operate 1-hour earlier between Emeryville and Chicago.
- Train 5(29JUN) will operate as Train 1005(29JUN) and will operate 1-hour later between Chicago and Emeryville.

WBS#: B.TR.100150.6816

CPKC River Subdivision - Scheduled M/W Work 26-067

22JUN26: CPKC has tie replacement and surfacing scheduled on the River Subdivision between St. Paul, MN and La Crosse, WI starting Monday, June 22nd through Sunday, September 20th. To accommodate the outlined infrastructure work, Amtrak's Borealis Service has been adjusted as follows:

- Train 1333(22JUN-20SEP) will arrive to St. Paul 20 minutes later at 7:01PM.
 - Train 1340(22JUN-20SEP) will depart St. Paul 20 minutes earlier at 11:29AM, will depart Red Wing 10 minutes earlier at 12:27PM, and return to normal schedule departing Winona.
- WBS Element B.TR.100150.6620 has been issued.

CNRR McComb Subdivision - Scheduled M/W Work 26-066

04JUN26: Canadian National Railroad has tie replacement scheduled on the McComb Subdivision between MP736 and MP756.2 starting Monday, June 22nd through Friday, July 31st. To accommodate the infrastructure work, Amtrak's City of New Orleans Service will be adjusted as follows:

- Train 59(21Jun-29Jul) will depart Chicago 2-hours Later, at 10:05pm, and will operate 2-hours Later between Chicago and New Orleans.
- Train 1059 (30Jul) will operate in lieu of Train 59(30Jul), departing Chicago 2-hours Later, at 10:05pm, and will operate 2-hours Later between Chicago and New Orleans.
- Train 58(22Jun-30Jul) will depart New Orleans 2-hours Later, at 3:45pm, and will operate 2-hours Later between New Orleans and Chicago.
- Train 1058(31Jul) will operate in lieu of Train 58(31Jul), departing New Orleans 2-hours Later, at 3:45pm, and will operate 2-hours Later between New Orleans and Chicago.

WBS#: B.TR.100150.6732

BNSF Southwest Chief Service - Scheduled M/W Work 26-049

13APR26: BNSF will perform multiple trackwork project on multiple subdivisions along the entire Southwest Chief route between Los Angeles, CA and Chicago, IL, May 31st, 2026 through October 9th, 2026. Multiple rail, tie, surfacing and undercutting gangs will work multiple curfews throughout this period. To accommodate this infrastructure work, the following Amtrak's Southwest Chief service adjustments are in effect:

- Train 4(29MAY-07OCT) will operate on an adjusted schedule as follows:

Depart Los Angeles, CA twenty-four minutes Earlier at 4:55PM-PT,
Depart Albuquerque, NM one minute Earlier at 11:31AM-MT,
Depart Kansas City, MO twelve minutes Later at 7:13AM-CT,
Depart Naperville, IL forty-seven minutes Later at 2:40PM-CT,
Arrive at Chicago, IL, forty-seven minutes Later at 3:29PM-CT.

Note: Naperville, IL will be a "discharge only" stop and the train may depart ahead of schedule.

- Train 1003(29MAY) and Train 3(30MAY-07OCT) will operate on an adjusted scheduled as follows:

Depart Chicago, IL fifty-five minutes Earlier at 1:30PM-CT,
Depart Kansas City, MO forty minutes Earlier at 9:37PM-CT,
Depart Albuquerque, NM twenty minutes Earlier at 3:14PM-MT,
Depart Fullerton, CA fifteen minutes Later at 7:18AM-PT,
Arrive Los Angeles, CA fifteen minutes later at 8:12AM-PT.

Note: Fullerton, CA will be a "discharge only " stop and the train may depart ahead of schedule.

WBS#: B.TR.100150.6626

Metra C&M Subdivision - Scheduled M/W Work 26-055

16MAY26: Metra has trackwork scheduled on the C&M Subdivision at Western Avenue - Rondout starting on May 16th through November 1st on Saturday and Sundays only. In order to accommodate the outlined infrastructure work, Amtrak's Hiawatha Service will be adjusted as follows:

Northbound

- Train 331 (Saturday and Sunday) will arrive at Milwaukee 10-minutes Later at 10:04am
- Train 335 (Saturday and Sunday) will arrive at Milwaukee 10-minutes Later at 2:44pm

Southbound

- Train 330 (Saturday ONLY) will arrive at Chicago 10-minutes Later at 8:07am.
- Train 332 (Saturday and Sunday) will arrive at Chicago 10-minutes Later at 9:44am
- Train 334 (Saturday and Sunday) will arrive at Chicago 10-minutes Later at 12:39pm
- Train 336 (Saturday and Sunday) will arrive at Chicago 10-minutes Later at 2:44pm

WBS#: B.TR.100150.6663

Amtrak/MDOT Michigan Line Track Work 26-044

20APR26: Amtrak/MDOT will begin track rehabilitation on the Michigan Line east of Jackson, MI/MP75.5 between MP75 and MP28 beginning 900PM-ET Monday April 20th through Thursday July 30th. To accommodate this infrastructure work, Wolverine service has been adjusted as follows:

04JUN26: Amtrak/MDOT trackwork will be concluding earlier with a new end date of Thursday, July 9th. Normal operations will resume to all Wolverine service trains on Friday, July 10th. The changes are reflected below:

- Train 1354(20APR) operates 1-hour earlier departing Chicago, IL at 450PM-CT.
- Train 354(21APR-09JUL) operates 1-hour earlier departing Chicago, IL at 450PM-CT.
- Train 351(20APR-09JUL) operates 37 minutes later, departing Pontiac, MI at 620AM-ET.
- Train 355(20APR-09JUL) operates 1-hour earlier, departing Pontiac, MI at 4PM-ET.
- Train 350(20APR-09JUL) will have two locomotives and will be configured as push pull consist to turn for Train 355(20APR-30JUL) at Pontiac.
