Train 716(31) East of Stockton, CA - Vehicle Strike

31JUL26: Train 716(31), operating with Engine 2013, eight coaches, and 154 customers, struck a vehicle approximately three miles east of Stockton, California, on the BNSF Stockton Subdivision at Milepost 1117.8. At the time of the incident, there were no reported injuries to the crew or customers, and Head End Power (HEP) remained active. Weather conditions were reported as sunny with a temperature of 97 degrees. Following the incident, the crew requested relief.

The train remained stopped while response personnel were dispatched to the scene. The delay initially reached 35 minutes as a Road Foreman of Engines and local law enforcement responded. The engineer was the only crew member who requested relief. Minor damage was reported to the front of Cab Car 8310, and a side door on the cab car would not close. Mechanical personnel were dispatched to assess the damage, and a track inspector was also sent to the location. The incident was later confirmed to be a non-fatal vehicle strike. During the disruption, Train 704(31) was held at Lodi, CA an open route.

As the delay extended to approximately 1 hour and 20 minutes, the Road Foreman of Engines and mechanical personnel arrived on scene. Mechanical forces successfully secured and locked out the damaged door, allowing the equipment to remain in service. The vehicle involved in the incident was removed from the crossing area, while the track inspector continued en route to complete the necessary inspection.

After all required actions were completed and the route was determined to be safe, Train 716(31) resumed operations with an approximate delay of 1 hour and 45 minutes. Train 704(31) was subsequently released from LOD and continued operation with a 41-minute delay.
