Train 655(19) Harrisburg, PA - Suspicious Package

19MAR26: At 9:48P-ET, APD reported a suspicious package in the Harrisburg, PA Station and requested a hold placed on the tracks at MP 104.3/ State. Train 655(19), with 41 passengers, held at Middletown, PA starting at 9:52P-ET while local police with canine units responded and investigated the package. Many passengers found alternate transportation from Middletown. At 10:56P-ET, local police cleared suspicious package and APD cleared tracks for train movement. Train 665(19), with the remaining 15 passengers, departed Middletown and proceeded west.

Train 2153(19) North of Route 128, MA - Engine Failure

19MAR26: Train 2153(19) operating with power cars 2107/2036, 6 coaches and 95 customers, was delayed 3 miles north of Route 128, MA, on Amtrak NHB Line, at milepost 220.3, due to a broken pantograph alarm on lead power car 2107. This caused the pantograph to lower and the crew had to reconfigure the pantographs (raise the rear pantograph). The crew stopped to inspect and ensure the potentially damaged pantograph was seated properly and was able to proceed when they took no exceptions. The crew then inspected all pantographs upon arriving at Route 128, MA.

Train 2153(19) was further delayed 15 miles east of New York, NY, due to the Electric Traction department inspecting the Pantographs to ensure they were in compliance for travel through the tunnels into New York Penn station.

19MAR26: BNSF reported high winds in effect on their Hi Line Subdivision from Bison/MP1143 to Pardue Sammons Spur/MP1101.3. The affected area is located between the Essex, MT/MP1168.9 and Cut Bank, MT/MP1090.1 stations. The highest warning was located between Spotted Robe/MP1132 and Glacier Park/MP1138 with up to 100MPH winds expected. All warnings were set to expire between 9:00PM and 9:30PM-MST on 19MAR.

Train 8/28(18) was held at the Whitefish, MT station/MP1219.3 due to it being a staffed station with satisfactory cell reception. Prior to arriving at the station, Train 8/28(18), with 226 passengers onboard, lost time at Fish River/MP1297.0 waiting on BNSF 6565 to tie down their train and then transport the freight crew to Whitefish. This was needed due to van availability from the high winds. Train 8/28(18) also had to hold at Vista/MP1223.9 for three BNSF freight trains to work the station track and clear. Once a route was established Train 8/28(18) proceeded to the station arriving at 9:44AM-MT to wait for the warnings to expire.

The Whitefish station remained staffed for the duration of the hold. The 217 passengers were given the opportunity to explore the Whitefish town and were instructed to be back to the train by 4:00PM-MT. The weather in Whitefish was 54 degrees, cloudy, with 5MPH winds expected during that time. After 4:00PM, dinner service began with pizza and sandwiches sent to the station. The diner and lounge were fully stocked for the extended stay. BNSF was hopeful that the winds would subside to under 79MPH around 5:00PM-MT to allow Train 8/28(18) to continue east.

At approximately 3:26PM-MT, BNSF reported that freight train Z-SSECHC2-18U derailed one loaded non-hazmat car, DTTX 890017, at MP 1123.8 on the single main track at Browning, MT on BNSF Hi-Line Subdivision. The car was standing upright with the 2 rear wheels derailed. With a 24 hour restoration of service estimate, Train 7/27(18) terminated at Shelby, MT, it wye and operated as Train 8/28(18) from Shelby, MT to Chicago, IL discharging passengers only. Train 8/28(18) terminated at Whitefish, MT, it wye to operate as Train 7/27(18) from Whitefish, MT to Seattle, WA/Portland/OR respectfully discharging customers only. Through examination, an ARROW input in regards to E/343, showed that it would be out of date traveling back to Seattle. The engines were flat switched, putting E/319 in the lead. Fuel was requested at Spokane, WA from BNSF and mechanical watered diner C/38061.

Three supplemental downline buses were also secured for Train 8/28(18) between St. Paul and Chicago. Bus#1 operated express from St. Paul to Chicago. Bus#2 operated express from La Crosse to Chicago. Bus#3 made all stops from St. Paul to Milwaukee. Customers destined east of Milwaukee, boarded the first available Hiawatha train to Chicago.

Due to the extensive delay and the high winds expected to take place on 20MAR as well, Trains 8/28(19) and 7/27(21) were cancelled entirely with no alternate transportation provided.
