04JAN26: At approximately 2:55 PM, 00000005554 UNCLASSIFIED 1/5/2026, the Union Pacific Railroad reported a possible track washout between San Jose, CA (SJC) and Salinas, CA (SNS) near CP Watsonville on the Coast Subdivision. Train 11(03) was stopped at Morgan Hill Caltrain Depot and train 14(04) was stopped at Santa Barbara, CA (SBA) pending a track inspection. Once tracks were inspected it was determined there was damage to 60 feet of rail and trains would not be able to operate through the area until repairs could be made. The following recovery plan was enacted:

Train 11(03):

- Train 11(03) will return to and terminate at San Jose, CA (SJC) - Passengers will be transported to Sacramento, CA on a Capitol Corridor Train (likely 748(04)) where they will be accommodated in the station overnight.
- Passengers will have the option to return to origin, or remain in station all night and be accommodated on State Supported Corridor trains to reach their destinations in morning.
- Two extra buses have been secured for train 702(05) between BFD and LAX to accommodate the displaced 11(03) passengers.
- Amtrak PD and Station Services will be available in Sacramento for passengers' safety and convenience. Station Services will provide service recovery meal items in Sacramento, CA.
- Train 11(03) equipment will wye and return to Oakland Maintenance Facility where equipment will be serviced and used to represent train 14(04) EMY-SEA.

Train 14(04):

- Train 14(04) is cancelled between Santa Barbara, CA (SBA) and Oakland, CA (OKJ)
- Train 14(04) will operate from Emeryville, CA (EMY) to Seattle, WA (SEA) using 11(03) equipment.
- Passengers have been detrained and are currently on train 784(04) being returned to origin.
- Passengers tickets have been fare protected and passengers can self-modify for alternate travel or seek refund options.
- 14(04) equipment will wye and return to 8th St Maintenance Facility to be in place for 14(05)

The Union Pacific Railroad reported the tracks were open for rail traffic at 9:05PM PT.

Train 8(02) East of Ephrata, WA - Boulder Strike

02JAN26: At 11:08PM-PT, Train 8(02), operating with E/39-E/327-6 Cars and 66 passengers onboard, went into emergency 12.8 miles east of Ephrata, WA/MP1599.1, on the BNSF Columbia River Subdivision, at MP1586.3 after striking an 80-100lb boulder. There were no injuries to the crew or 66 passengers onboard. The crew walked the equipment and originally found a broken main reservoir hose. Upon further inspection of the equipment, extensive damage was found on three cars in the consist, C/61037, C/32016, C/38017. Multiple trucks on these cars needed to be cut out, reducing braking effort. Train 8(02) was back on the move at 12:58AM-PT operating not exceeding 40MPH to Spokane per rule. The Conductor reported that head end power was off to the trainset after they were back on the move and it continued with no HEP through to Spokane arriving at 3:47AM-PT, 3 hours and 10 minutes late. The outdoor temperature at the time was 34 degrees with the temperature onboard reported comfortable with emergency blankets handed out if needed.

Upon arrival to Spokane, mechanical was onsite to complete an assessment of the equipment. It was found that the damaged baggage car 61037 and sleeper car 32016 had to be setout. Repairs were made to dining car 38017. Train 7(01) was held at Spokane for the assessment and then took a delay adding the two setout cars to the rear end of the

minutes late. The 217 section was originally held and released at 4:11PM, operating 55 minutes late to Portland.

26-FOI-00217 00000005554 "UNCLASSIFIED" 1/5/2026
Train 8/28(02) departed Spokane at 7:11AM, operating 3 hours and 56 minutes late. 42 Sleeper car passengers were impacted after setting out sleeper car 32016. 39 of the 42 impacted customers were able to be reaccommodated into the open rooms in the other two sleeping cars. 3 of the 42 affected passengers were notified and downgraded to coach seating. Service recovery was enacted for train 8(02) which consisted of the Lounge car offering coffee, tea, and juice discounted and comping meals as needed. Snack packs and water was available for all guests. The sleeper passengers meals were not affected and received normal meals off the menu.

After departing Spokane, WA, Train 8/28(02) reported experiencing intermittent head end power issues anytime the train would come to a stop. Loss of head end power happened for small periods of time and quickly would come back up as soon as the train was on the move. BNSF mechanical met the train upon arrival to the Whitefish, MT station to troubleshoot the issue with the crew. Upon inspection, two loose cables between the locomotives were found and secured. Head end power was brought up on lead engine 39 and Train 8/28(02) departed Whitefish at 2:26PM-MST, operating 7 hours late.

Due to the late operation of 8(02), three supplemental on-time buses were secured between St. Paul, MN and Chicago, IL for Sunday. Two buses will operate express from St. Paul to Chicago. The third bus will make all stops from St. Paul to Milwaukee and then all passengers destined east of Milwaukee will board the next available Hiawatha.

Due to the late arrival of train 7(01) into Seattle, WA, train 8(03) was delayed departing Seattle, WA due to normal servicing. Train 8(03) departed Seattle at 6:24pm-pt, 1'29" late.

04JAN26: Train 8/28(02) with E/39-164-327 and 4 cars was delayed at Grand Forks on the BNSF Devils Lake subdivision due to an alarm on E/39 with loss of HEP for approximately 15 minutes. There were 90 passengers on board with an ambient temperature of 18 degrees. The crew worked with CNOC mechanical to restore HEP via E/327. The crew identified a frayed, low hanging HEP cable between E/164-327 and made temporary repairs with gorilla tape, zip ties, and carabiners to raise the cables. HEP was intermittent while the crew worked to short loop. There was also a report of C/39027 with a damaged receptacle. Train 8(02) departed Grand Forks at 1131AM-CT, 9'31" late. Due to equipment issues, train 8/28(02) was terminated at St. Paul-Minneapolis with alternate bus transportation to Chicago, drop off only. Three buses operated express and one bus operated locally.

Due to the late operation of train 8/28(04), the following service recovery was put into effect:

- 1) Sleeper passenger meals were not affected, with passengers ordering off of the menu.
- 2) The lounge offered complimentary coffee, tea, juice, discounted and complimentary meals into Minneapolis.
- 3) Breakfast items were made available to all coach passengers.
- 4) Snack items were made available to the passengers in Minneapolis that departed by bus.
