Train 20(04) - Aberdeen, MD - Fire Department Summoned for Debris Fire Underneath Last Car

05APR26: Train 20(04) was delayed on the Amtrak Philadelphia to Washington Line at MP 65.2 due to smoke emanating from underneath the last coach - 69003. The crew stopped the train to inspect and verified the smoke conditions. Train 20(04) was then shoved back to Aberdeen Station/MP 65.5 where the local Fire Department met the train. A hold was placed on all tracks in both directions while the Fire Department investigated and engaged the source of the smoke.

Amtrak Management and APD responded to the scene.
Train 20(04) was released after Police and Fire Department personnel cleared the scene.
Multiple Amtrak trains were delayed due to this incident.

CN Derailment West of Niagara Falls, ON

30MAR26: At 10:07AM-26-FOI-00408 60000006301 "UNCLASSIFIED" 4/30/2026 Canadian National (CN) west of Niagara Falls, Ontario, on the Canadian side of the border, just west of the Seaway Bridge. CN advised that approximately 20 freight cars derailed, with the remaining portion of the consist occupying the bridge. As a result of the incident, all train traffic in and out of Niagara Falls, Ontario, was suspended. Given the blockage at the international crossing and the uncertainty surrounding the duration of the outage, significant service disruptions were implemented for passenger operations. Customers traveling on Train 64(30) were initially transferred by VIA Rail to buses to Niagara Falls, Ontario. VIA Rail advised customers that transportation across the border to the Niagara Falls, New York side could not be guaranteed. Alternative transportation continued to be sourced for customers destined beyond Niagara Falls, Ontario, as well as for customers downline on Train 63(30). Due to the ongoing service suspension, additional service adjustments were announced to mitigate the impact to customers. Train 64(30) was cancelled east of Toronto, Canada, at the VIA Rail station in Oakville. Alternative transportation was provided between Oakville and Niagara Falls, Ontario. From Niagara Falls, Ontario, taxis were arranged to transport customers to Niagara Falls, New York, and two buses were sourced to provide onward transportation between Niagara Falls, New York, and Rochester, New York. Train 63(30) was cancelled at Rochester, New York, with alternative bus service provided between Rochester and Niagara Falls, New York, and taxi service arranged between Niagara Falls, New York, and Niagara Falls, Ontario. VIA Rail also provided alternative transportation for customers traveling between Niagara Falls, Ontario, and Toronto, Canada. Additional schedule impacts were implemented for the following day's service. Train 64(31) was scheduled to originate in Rochester, New York, with no alternative transportation provided beyond that point, and Train 63(31) was scheduled to terminate in Rochester, New York, also without alternate transportation. These measures remained in effect pending CN's clearance of the derailment and the restoration of normal rail traffic through the Niagara Falls corridor.

30MAR26: UPDATE 3:30PM The buses operating between were Niagara falls, NY and Rochester, NY, were delayed due to a last minute additional customers that were dropped off from Via Rail to be transported across the border to Niagara Falls, NY. This delayed the buses that were going to turn in Rochester, NY and operate back to Niagara Falls, NY as 63(30) alternate. Via rail worked with Service Delivery Director to provide additional busing for customers arriving into Niagara Falls, Ontario after the scheduled departure time of Via Rails initial bus.

Service recovery: Snack packs and water were made available for all customers on both trains.

01APR26: CN tracks remain closed with eto. Trains 64(03-05) was originated at Niagara Falls, NY with no alternate transportation and train 63(02-04) was terminated at Niagara Falls, NY with no alternate transportation.

Train 6(05) Elko, NV - Freight Train Interference

06APR26: Train 6(05), carrying 123 customers onboard, was delayed at Elko, NV Station while awaiting UP freight train AMICXX-04 (UP 8186) to complete fueling and depart the yard. After clearing the Elko Yard, Train 6(05) was required to operate around UP 6783 and subsequently followed UP 8186 again through Alazon (MP 603.7), resulting in additional delay. Once the freight movements cleared and dispatching conditions improved, Train 6(05) continued its eastbound trip without further incident.

Train 8/28(04) Havre, MT through Minot, ND - Freight Train Interference

06APR26: Train 8/28(04) ~~FOI-00488~~ ~~0000000301~~ with "UNCLASSIFIED" ~~4/30/2026~~ ~~4/30/2026~~ and E/301 and 10 cars, was heavily delayed while traversing BNSF territory between Havre, MT, and Minot, ND, across the Milk River and Glasgow Subdivisions due to significant freight train interference. The train encountered repeated meets and holds with multiple BNSF freight movements, including BNSF 6139 at Lohman Siding (MP 416.8), BNSF 417 at Saco Siding (MP 316.5), BNSF 4744 at Tampico Siding (MP 288.1), and BNSF 4178 at Kintyre (MP 251.6). Additional delays occurred after meeting BNSF 4204 and BNSF 5887 at Macon Siding (MP 221.1), followed by BNSF 6968 at Brockton (MP 191.9), and finally BNSF 5895 at Control Point 189. Once freight movements cleared and dispatching conditions improved, Train 8/28(04) continued its eastbound trip toward Minot.

CSX Grand Rapids Subdivision - Washout

04APR26: At 2:30PM-ET, CSX received a washout on the single main track at MP 75.5, located approximately 12.4 miles east of the St. Joseph, MI station/MP87.9 on the CSX Grand Rapids Subdivision. At the time of the report, no estimated time of opening (ETO) was available. As a result of the washout, the following service adjustments took place to Amtrak's Pere Marquette Service:

- Train 370(04), with 142 affected customers, was cancelled entirely with three alternate buses secured. Bus#1 operated express from Chicago to Grand Rapids. Bus#2 operated express from Chicago to Holland. Bus#3 made all station stops from Chicago to Grand Rapids.
- Train 371(05) with 158 affected customers, was cancelled entirely with three alternate buses secured. Bus#1 operated express from Grand Rapids to Chicago. Bus #2 made all station stops from Grand Rapids to Chicago. Bus #3 operate express Holland to Chicago.

05APR26: CSX advised a rough estimated time of opening was sometime on Monday April 6. As a result, additional service adjustments were necessary:

- Train 370(05), with 156 affected customers, was cancelled with alternate transportation between Chicago and Grand Rapids. Bus #1 operated express from Chicago to Holland. Bus #2 operated express from Chicago to Grand Rapids. Bus #3 and Bus #4 made all scheduled stops between Chicago and Grand Rapids.
- Train 371(06), with 201 affected customers, was cancelled, with alternate transportation between Grand Rapids and Chicago. Bus #1 and Bus#2 operated express from Grand Rapids to Chicago. Bus #3 operated express Holland to Chicago. Bus #4 made all scheduled stops between Grand Rapids and Chicago.

06APR26: CSX advised the estimated time of opening was 200PM-ET on April 6. An additional update was to be provided at 900AM-ET.

Palm Springs, CA Closure - High Winds

13JAN25: Palm Springs Station, located at MP 588.2 on the Union Pacific Railway Yuma Subdivision, is subject to temporary intermittent closures caused from high winds creating a build up of sand in the switches to enter Garnet Siding. This sand build up prevents the switches from being lined, and causes the internal gear mechanism of the switch to cease up. This prevents train crews from hand lining the switch and being able to access the station platform. Standing policy states that when this occurs trains will bypass the station at Palm Springs and passengers will be transported to the next stop of Ontario, CA or Yuma, AZ, no alternate transportation will be provided.

UPRR Mineola Subdivision Track Work - Scheduled M/W Work

11MAR26: Union Pacific Railroad has trackwork scheduled on their Mineola Subdivision between Fort Worth, TX and Longview, TX, on numerous dates between Thursday March 12th and Tuesday, April 28th, 2026. To accommodate this infrastructure work, Amtrak's Texas Eagle Service has been adjusted as follows:

-Train 21(12Mar-16Mar, 23Mar-30Mar, 6Apr-12Apr, 20Apr-27Apr), which operates between Chicago and San Antonio, will utilize a bus bridge in lieu of train service between Marshall and Fort Worth. The Fort Worth to San Antonio section will operate as Train 1021(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr) and will operate 80-minutes later between Fort Worth and San Antonio, departing Fort Worth at 3:48pm.

Train 421(13Mar, 15Mar, 24Mar, 27Mar, 29Mar, 7Apr, 10Apr, 12Apr, 21Apr, 24Apr, 26Apr), which normally operates between Chicago and Los Angeles, will originate at Fort Worth and will operate 80-minutes later between Fort Worth and San Antonio, departing Fort Worth at 3:48pm.

-Train 22(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr), which operates between San Antonio and Chicago, will utilize a bus bridge in lieu of train service between Fort Worth and Marshall. The Marshall to Chicago section will operate as Train 1022(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr) and will operate 2-hours later between Marshall and St. Louis (departing MHL at 9:29pm), and 2 hours 15-minutes later between St. Louis and Chicago (departing St. Louis at 10:25am).

-Train 422(11Mar, 13Mar, 15Mar, 22Mar, 25Mar, 27Mar, 29Mar, 5Apr, 8Apr, 10Apr, 19Apr, 22Apr, 24Apr, 26Apr), which normally operates between Los Angeles and Chicago, will terminate at Fort Worth.

ALTERNATE TRANSPORTATION

-Bus 3021 will provide alternate transportation at Marshall, Longview, Mineola, Dallas, and Fort Worth

-Bus 3022 will provide alternate transportation at Fort Worth, Dallas, Mineola, Longview, and Marshall

**Please Note: During trackwork days, Bus 6022 from Houston and Buses 6122 and 6421 from Shreveport will be redirected to Marshall, instead of Longview, and Bus 6021 to Houston and Buses 6121 and 6422 to Shreveport will depart from Marshall.

18MAR26: Train 1022(17), E/69-E/668 & 7 cars, was delayed departing St. Louis, MO, due to issues initializing PTC for UPRR. UPRR reported system issues with train symbol related to the planned track work. Road foreman was on scene assisting crew. After working with UPRR PTC desk numerous times, issues were still unresolved and Train 1022(17) was authorized to operate over the UPRR with PTC cut-out. Train 1022(17) was delayed enroute to Joliet, operating 59MPH Max.
