Train 171(23) South of Culpeper, VA - Vehicle on Tracks

23JUL26: Train 171, operating with engine 68, 6 coaches and 315 customers, was delayed 3 miles south of Culpeper, VA, on NS Alexandria-Montview subdivision, due to a vehicle that overturned on the tracks. Local police responded with a tow truck to remove the vehicle. Once the Vehicle was removed, the cargo that was on the vehicle then had to be removed from the tracks as well. Once the tracks were clear, train 171(23) was cleared for movement.

Train 66(23) was also delayed due to the vehicle on the tracks.

Train 486(23) New Haven, CT - Initial Terminal Delay - Engine Failure

23JUL26: Train 486(23) operating with cab car 9643, 1 car, engine 95, and 59 customers onboard was delayed departing New Haven, CT on the Metro North New Haven Line due to swapping equipment because of ACSES issues with the originally planned equipment of cab car 9647. Once the passengers were boarded on the equipment, Train 486(23) departed the station at 3:50 PM-ET.

Mechanical attempted to troubleshoot the issues with cab car 9647. They believed that they had been successful and planned to operate the equipment as Train 474(23). During the road test, the train encountered the same issues with ACSES. Train 474(23) was short turned off of Train 475(23).

Maple Leaf Service Disruption - Niagara Falls, ON

23JUL26: VIA Rail reported that the tracks between St. Catharines, Ontario, milepost 11.7, and Niagara Falls, Ontario, milepost 0.6 on the Canadian National Grimsby subdivision were out of service due to multiple defects found. It was reported that the tracks would be out of service for the rest of the day. This created a service disruption to Trains 63(23) and 64(23). Alternate transportation was secured by VIA Rail to transport the customers from Train 64(23) to Niagara Falls, Ontario from St. Catharines. They also secured transportation for the customers from train 63(23) from Niagara Falls to Toronto. Three additional buses were secured to transport customers between Niagara Falls, ON and Buffalo Exchange. Two buses operated from express between the two locations and the third bus operated Niagara Falls, NY to Buffalo Exchange and then back to both Niagara Falls stations. Train 63(23) was turned at Buffalo Exchange Street Station and operated as Train 64(23).

Via Rail reported all tracks open for normal operation at approximately 8:30pm-et. Trains 63(24) and 64(24) operated normally.

Palm Springs, CA Closure - High Winds

13JAN25: Palm Springs Station related to WBS 5622 of the Union Pacific Railway Yuma Subdivision, is subject to temporary intermittent closures caused from high winds creating a build up of sand in the switches to enter Garnet Siding. This sand build up prevents the switches from being lined, and causes the internal gear mechanism of the switch to cease up. This prevents train crews from hand lining the switch and being able to access the station platform. Standing policy states that when this occurs trains will bypass the station at Palm Springs and passengers will be transported to the next stop of Ontario, CA or Yuma, AZ, no alternate transportation will be provided.
