The initial plan was to set out locomotive 332 at Engle Siding and continue to San Antonio, TX with a single locomotive while a freight unit was being sourced. Mechanical personnel and the Road Foreman were dispatched to the train with an estimated arrival time of approximately two hours.

To facilitate a safer and more efficient setout, Train 1(26) was authorized to advance to Flatonia at MP 120. The train arrived in Flatonia at approximately 11:30 PM CT and began the process of setting out trailing locomotive 332.

Upon arrival, Mechanical forces inspected locomotive 332 and determined that the issue was caused by a stuck brake.
