## Operating Highlights

### ***Train 245(13) - New York, NY - Engine Failure***

14APR26: Shortly after departing New York Penn Station, Train 245(13), E/709 experienced multiple faults, forcing the train to shove back to Penn Station, where it was met by mechanical personnel. The issues with E/709 could not be resolved. The train was looped so E/132 would be west out.

### ***Train 55(13) - North of Baltimore, MD - Catenary or Wayside Failure***

13APR26: 10:40pm Train 55(13) with E/608 plus 6 cars, carrying 205 passengers, stopped on No. 3 track at MP 91.7 on the Amtrak PW Line after losing tractive power and HEP. Crews reported the rear pantograph on E/608 was broken off. Power was temporarily lost on No. 3 track from Gunpow/79.3 to Charles/MP 95.9.

ET Personnel responded to the scene along with RFE Jefferson. Amtrak personnel on the ground reported the trolley wire was down between between Gunpow/ MP 79.3 and Point/MP 90.1. An ET hold was enforced on No. 2 track and NO. 3 track for the same span. Once on scene, ET reported a piece of the broken rear pantograph needed to be removed before the remainder of the structure could be secure.

Train 175(13) was held at Edgewood then proceeded to MP 91.7 for passenger transfer. All passengers were transferred to Train 175(13).

The disabled Train 55(13) equipment was rescued by MARC Extra engine 75, which towed it into Washington, DC.

## Disabled New Jersey Transit Train - New York Penn Station, NY

13APR26: 5:18pm New Jersey Transit train 0727 became disabled on Line 1 as it made its way from Sunnyside Yard to New York Penn Station. The Engineer was unable to build air after an emergency application of the brakes. No passengers were on board. An Amtrak motor was sent from the station to rescue the set. At 7:16pm the rescue motor was coupled, but crews continued to have issues with air blowing in the middle of the consist.

New York Terminal Management and New Jersey Transit Mechanical personnel responded to the scene.

Crews were finally able to move the equipment by halving the consist. By 9:30pm, Line 1 was clear of the disabled equipment. Several Amtrak trains were delayed due to this incident.

## Train 182(13) West of Trenton, NJ - Engine Failure

13APR26: Train 182(13) with E/618 and nine cars was delayed four miles west of Trenton on the Amtrak New York to Philadelphia line after the engineer heard a pop in the overhead catenary with the MCB opened on E/618 with a smoke indication on NO.2 track west of MP 62.0. There were 120 customers onboard and HEP was down for approximately 40 minutes. The weather was 77 degrees and cloudy. The power director reported no exceptions to AC outages. All passengers were transferred to train 648(13) enroute to New York. Train 2171(13) inspected and reported no exceptions to the catenary. The crew on train 182(13) was able to recover with assistance from CNOC mechanical and the equipment deadhead to New York. At New York, 182(13) equipment went to the yard and added E/607 for the turn of train 129(13). Once the equipment was made up and released, 328 customers were welcomed aboard, and 129(13) departed New York at 456PM-ET, 32 minutes late. Washington was advised to remove E/618 due to the TCU 2 converter being cut out.

### ***Train 55(13) South of Essex Junction-Burlington, VT - Debris***

13APR26: Train 55(13) was delayed four miles south of Essex Junction on the NECR Roxbury subdivision at MP 104.0 due to a tree across the tracks at MP 99.0. MOW responded to the scene and removed the tree. Once the tree was removed, 55(13) continued to Waterbury. Train 55(13) arrived Springfield at 336PM-ET, 1 hour, and 1 minute late. As a result, train 56(13) was delayed departing Springfield due to the late arriving engineer off 55(13). Once the engineer arrived and briefed, 56(13) departed Springfield at 345PM-ET, 30 minutes late.

### ***Train 111(13) Philadelphia, PA - Engine Failure***

13APR26: Train 111(13) with E/648, nine cars, and CC/9751 was delayed five miles east of Philadelphia at Lehigh/MP 85.1 on NO.3 track due to the pantograph dropping with a loss of HEP. There were approximately 421 customers on board and the weather was 61 degrees and cloudy. The crew was able to recycle and continued to Philadelphia. At Philadelphia the train was terminated due to E/648 with IO 43 station and HEP faults. Customers were fare protected and accommodated on trains 181(13) as well as 89(13). Train 181(13) protected the stops of BWI and New Carrollton. As a result, train 182(13) originated at Philadelphia. E/648 and CC/9751 were removed from the consist at Philadelphia and E/618 was added to the north end for service on 182(13). CC/9751 was removed for brakes as well as a conductor valve applied fault.

### Passenger Removals and/or Isolations

#### ***Train 306(13) Passenger Removal at Springfield, Illinois – Improper Conduct***

13APR26, Passenger on PNR E3E699, traveling from Alton, IL to Bloomington, IL was reportedly passenger was belligerent and argumentative when asked to present a ticket. While the conductor was walking past, the passenger made verbal threats toward the conductor. Later, I was notified that the passenger was actively engaged in a physical altercation with another passenger. I intervened to separate the individuals and provided the passenger with tissue for a bloody nose.

Following this, the passenger directed threats of violence toward me, used racial and sexual slurs, and made several aggressive lunging movements in my direction. I restrained the passenger and held him in his seat. During the restraint, the passenger struck me multiple times in the ribs, and I struck him once in the head to stop the assault. The passenger then ceased resisting. I maintained control of the passenger for approximately 15 minutes until Springfield Police arrived on scene.

Amtrak Police notified.

**Delay: 306(13) 67"**

#### ***Train 517(13) Passenger Removal at Kelso-Longview, Washington – Improper Conduct***

13APR26, Passenger on PNR E3293B, traveling from Bellingham, WA to Portland, OR. The conductor received a tip from Detective Travers via the

APD tip line about a passenger causing a disturbance and behaving erratically. After <sup>26-FOI-00408 00000006309 "UNCLASSIFIED" 4/30/2026</sup> investigating and speaking with the reporting passenger, the conductor identified the individual, Terry, and escorted him to the café car due to safety concerns from passengers in Car 5.

During the escort and while seated in the café car, Terry spoke to himself, made delusional statements, and became increasingly loud despite repeated attempts to de-escalate and redirect his behavior. He also made threatening and highly offensive statements toward others.

The conductor updated Detective Travers, who advised that law enforcement would meet the train in Kelso. The conductor monitored Terry until arrival. Upon reaching Kelso, Terry agreed to step off the train, and he was escorted off without incident. Kelso Police then assumed responsibility for the situation.

Amtrak Police notified.

**Delay: 517 (13) None**

### ***Train 509(13) Passenger Removal at Vancouver, Washington – Improper Conduct***

13APR26, Passenger on PNR 827E99, traveling from Seattle, WA to Portland, OR reportedly. Passenger engaged in disruptive behavior in the café car, including the use of profanity and verbal insults directed toward both other passengers and crew members. Her remarks were vulgar and personal in nature. A passenger seated behind her requested that she lower her voice, which further agitated Denise and caused the situation to escalate.

Due to her continued disruptive behavior, arrangements were made to remove her in Vancouver with police assistance. After becoming aware that law enforcement had been contacted, Denise voluntarily detrained prior to police involvement.

The cause of Denise's behavior is unclear. She consumed two beers between Seattle and Portland and had been quiet prior to this incident. It is noted that she attended a Seattle Mariners baseball game earlier in the day and may have consumed additional alcohol before boarding.

Amtrak Police notified.

**Delay: 509 (13) 3"**

### ***Train 6(12) Passenger Removal at McCook, Nebraska – Improper Conduct***

13APR26, Passenger on PNR DC97C5, traveling from Denver, CO to Galesburg, IL was reported. Passenger Kyle Numbers engaged in disruptive and threatening behavior in the ADA car, including verbal threats of physical violence toward other passengers. He repeatedly screamed, used profanities, and threw food at several ADA passengers. Statements were obtained from all six ADA passengers seated in the lower level, each of whom provided consistent accounts of the incident.

Based on these observations and witness statements, it was determined that Mr. Numbers had negatively impacted the travel experience of all lower-level passengers and posed a continued risk to their safety if allowed to remain on board. Mr. Numbers was informed that he would be removed from the train at the next station stop. He agreed to disembark at MCK.

MCK Police Department was contacted to ensure Mr. Numbers would receive appropriate assistance if needed. Upon arrival at MCK, local law enforcement met the train and assisted Mr. Numbers with his removal and personal belongings. Amtrak Police notified.

**Delay: 319(06) 05"**

## Operating Highlights

### ***Train 14(12) Portland, OR - Servicing***

14APR26: Train 14(12), operating with locomotives E/363 and E/349 and nine cars, was delayed at Portland, OR Station to complete required mechanical calendar-day inspections. These inspections were necessary due to the late operation of the train. Once all inspections were completed and the equipment was released by Mechanical, Train 14(12) departed Portland and continued its northbound trip with 125 customers onboard.

### ***Train 517(13) Seattle, WA - Cab Car Failure***

14APR26: Train 517(13), operating with CC/7910, 12 cars, and locomotive E/WS1401, was delayed at Seattle Station after crews reported no dynamic braking available while operating from the cab car. Mechanical technicians responded and inspected the equipment, subsequently tagging the cab car out of service and recommending the train be turned to operate with the locomotive leading. The crew utilized the Stacy Wye to reposition the consist and continue with locomotive WS1401 leading. The train incurred additional delay later when it was turned again prior to arrival at Portland, OR, to ensure the equipment was correctly staged for the scheduled Train 506(13) departure.

### **Train 48/448(13) Chicago, IL - Car Failure**

13APR26: Train 48/448(13), with engines 90 and 88, 10 cars, and 212 customers onboard, was delayed departing Chicago Union Station, IL/MP0.0 on the Amtrak Chicago South subdivision, due to loading problems observed while shoving into the depot. The equipment returned to the yard for inspection while engine 57 was worked up as a replacement. Chicago Mechanical forces identified an electrical short in sleeper car 62014's HVAC compressor that was sending ground faults to the locomotives. Sleeper car 62014 was bad ordered and deadheaded inline. Twenty customers were downgraded. Once Chicago Mechanical released the equipment, train 48/448(13) shoved into the depot, boarded customers, and departed Chicago, IL.

## **Train 393(13) Kankakee, IL - Air Compressor Failure**

13APR26: Train 393(13), with engine IDTX4601, 7 cars, and 237 customers, stopped at Kankakee, IL/MP55.9 on the CN Chicago subdivision so the crew could inspect the engine for an air compressor issue. The air compressor ran continuously however no reason for the behavior was observed. Train 393(13) was terminated at Kankakee, IL. Four buses were sourced for the customers, two buses operating express between Kankakee, IL and Champaign, IL and two buses making all stops to Carbondale, IL. Customers remained onboard the train with HEP running until the buses arrived.

Train 392(13) was delayed operating through Kankakee, IL due to train 393(13) stopping on single main track.

Train 390(14) was cancelled in its entirety with alternate buses being sourced.

Rescue engines 160 and 519 departed Chicago, IL in back to back configuration at 9:37PM CT as train 965(13). Train 965(13) arrived at Kankakee Station, IL, coupled the 393 equipment, and departed for Chicago, IL as train 966(13).

# Train 769(13) East of Glendale, CA - Trespasser Incident

13APR26: At approximately 12:00 PM PT, UNCLASSIFIED 769(13) operating eastbound with locomotive CDTX/2111 and six cars, and carrying 194 customers onboard, fatally struck a pedestrian approximately 3 miles east of Glendale, CA, at the Grandview Avenue rail crossing (DOT 746796L, MP 8.7) on the SCRRA Metrolink Valley Subdivision in Los Angeles County. The incident occurred at a public highway grade crossing and was investigated as a confirmed fatality.

There were no reported injuries to onboard customers or crew. Head-end power remained available throughout the incident, supplied by locomotive CDTX/2111. Weather conditions at the time were reported as 60°F and partly sunny. Local Police and Fire Department personnel responded to the scene, along with a Los Angeles-based Amtrak Road Foreman. Following initial actions and after shoving the equipment back to Glendale, the Engineer, Conductor, and Assistant Conductor requested and were granted relief.

Once the investigation was completed and authorities released the scene, tracks were reopened and a service recovery plan was implemented. Train 769(13) was canceled between Glendale and Goleta, with affected customers transferred to Train 777(13) at Burbank Station. Additionally, Train 790(13) was canceled between Goleta and Los Angeles, and customers were reaccommodated on Train 794(13). Train 790(13) subsequently originated from Los Angeles using the equipment from Train 587(13), while the Train 769(13) incident equipment was routed to the yard for cleaning and inspection.

As a cascading impact, Train 782(13) experienced a delay at Burbank Airport Station while awaiting track availability. The disruption also resulted in a late equipment turn affecting Train 593(13) departing San Diego.

Amtrak Police and EAP were notified.

Service Recovery: Passengers on delayed trains were offered complimentary snack packs, hot beverages, and bottled water.

### **Train 7/27(13) Late Departure Chicago, IL - Car Failure**

13APR26: Train 7/27(13), E/314-E/309 & 10 cars, was delayed departing Chicago, IL, due to late release of equipment after replacing bad order sleepers. The rear car, 2730 sleeper C/32001 was shopped for HVAC issues and C/32056 was added as the replacement. Replacement sleeper C/32056 was then shopped at 100PM-CT for bad brake indicator lights. It was necessary to cut off C/32056 and add the second replacement sleeper, C/32037 resulting in the late departure of Train 7/27(13) from Chicago.

### **Train 520(13) Berkeley, CA - Third Party Contractor Engine Failure**

13APR26: Train 520(13) with C2104, 5 cars, and 18 customers was terminated at Berkeley, CA station at MP 6.3 on the UPRR Martinez subdivision. After completing station work, the train lost HEP and the locomotive shut down when attempting to depart. The engineer attempted to restart the locomotive but was unsuccessful. Tasi mechanical sent personnel to the train to troubleshoot and were successful in restarting the locomotive. While troubleshooting the faults, the 18 customers onboard were transferred to 522(13) to continue their travel. 520(13) equipment then deadheaded to Sacramento to make its turn of 531(31).

UPRR Mineola Subdivision Track Work - Scheduled M/W Work

11MAR26: Union Pacific Railroad has trackwork scheduled on their Mineola Subdivision between Fort Worth, TX and Longview, TX, on numerous dates between Thursday March 12th and Tuesday, April 28th, 2026. To accommodate this infrastructure work, Amtrak's Texas Eagle Service has been adjusted as follows:

-Train 21(12Mar-16Mar, 23Mar-30Mar, 6Apr-12Apr, 20Apr-27Apr), which operates between Chicago and San Antonio, will utilize a bus bridge in lieu of train service between Marshall and Fort Worth. The Fort Worth to San Antonio section will operate as Train 1021(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr) and will operate 80-minutes later between Fort Worth and San Antonio, departing Fort Worth at 3:48pm.

Train 421(13Mar, 15Mar, 24Mar, 27Mar, 29Mar, 7Apr, 10Apr, 12Apr, 21Apr, 24Apr, 26Apr), which normally operates between Chicago and Los Angeles, will originate at Fort Worth and will operate 80-minutes later between Fort Worth and San Antonio, departing Fort Worth at 3:48pm.

-Train 22(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr), which operates between San Antonio and Chicago, will utilize a bus bridge in lieu of train service between Fort Worth and Marshall. The Marshall to Chicago section will operate as Train 1022(13Mar-17Mar, 24Mar-31Mar, 7Apr-13Apr, 21Apr-28Apr) and will operate 2-hours later between Marshall and St. Louis (departing MHL at 9:29pm), and 2 hours 15-minutes later between St. Louis and Chicago (departing St. Louis at 10:25am).

-Train 422(11Mar, 13Mar, 15Mar, 22Mar, 25Mar, 27Mar, 29Mar, 5Apr, 8Apr, 10Apr, 19Apr, 22Apr, 24Apr, 26Apr), which normally operates between Los Angeles and Chicago, will terminate at Fort Worth.

ALTERNATE TRANSPORTATION

-Bus 3021 will provide alternate transportation at Marshall, Longview, Mineola, Dallas, and Fort Worth

-Bus 3022 will provide alternate transportation at Fort Worth, Dallas, Mineola, Longview, and Marshall

\*\*Please Note: During trackwork days, Bus 6022 from Houston and Buses 6122 and 6421 from Shreveport will be redirected to Marshall, instead of Longview, and Bus 6021 to Houston and Buses 6121 and 6422 to Shreveport will depart from Marshall.

18MAR26: Train 1022(17), E/69-E/668 & 7 cars, was delayed departing St. Louis, MO, due to issues initializing PTC for UPRR. UPRR reported system issues with train symbol related to the planned track work. Road foreman was on scene assisting crew. After working with UPRR PTC desk numerous times, issues were still unresolved and Train 1022(17) was authorized to operate over the UPRR with PTC cut-out. Train 1022(17) was delayed enroute to Joliet, operating 59MPH Max.

### Passenger Removals and/or Isolations

#### ***Train 306(13) Passenger Removal at Springfield, Illinois – Improper Conduct***

13APR26, Passenger on PNR E3E699, traveling from Alton, IL to Bloomington, IL was reportedly passenger was belligerent and argumentative when asked to present a ticket. While the conductor was walking past, the passenger made verbal threats toward the conductor. Later, I was notified that the passenger was actively engaged in a physical altercation with another passenger. I intervened to separate the individuals and provided the passenger with tissue for a bloody nose.

Following this, the passenger directed threats of violence toward me, used racial and sexual slurs, and made several aggressive lunging movements in my direction. I restrained the passenger and held him in his seat. During the restraint, the passenger struck me multiple times in the ribs, and I struck him once in the head to stop the assault. The passenger then ceased resisting. I maintained control of the passenger for approximately 15 minutes until Springfield Police arrived on scene.

Amtrak Police notified.

**Delay: 306(13) 67"**

#### ***Train 517(13) Passenger Removal at Kelso-Longview, Washington – Improper Conduct***

13APR26, Passenger on PNR E3293B, traveling from Bellingham, WA to Portland, OR. The conductor received a tip from Detective Travers via the

APD tip line about a passenger causing a disturbance and behaving erratically. After <sup>26-FOI-00408 00000006309 "UNCLASSIFIED" 4/30/2026</sup> investigating and speaking with the reporting passenger, the conductor identified the individual, Terry, and escorted him to the café car due to safety concerns from passengers in Car 5.

During the escort and while seated in the café car, Terry spoke to himself, made delusional statements, and became increasingly loud despite repeated attempts to de-escalate and redirect his behavior. He also made threatening and highly offensive statements toward others.

The conductor updated Detective Travers, who advised that law enforcement would meet the train in Kelso. The conductor monitored Terry until arrival. Upon reaching Kelso, Terry agreed to step off the train, and he was escorted off without incident. Kelso Police then assumed responsibility for the situation.

Amtrak Police notified.

**Delay: 517 (13) None**

### ***Train 509(13) Passenger Removal at Vancouver, Washington – Improper Conduct***

13APR26, Passenger on PNR 827E99, traveling from Seattle, WA to Portland, OR reportedly. Passenger engaged in disruptive behavior in the café car, including the use of profanity and verbal insults directed toward both other passengers and crew members. Her remarks were vulgar and personal in nature. A passenger seated behind her requested that she lower her voice, which further agitated Denise and caused the situation to escalate.

Due to her continued disruptive behavior, arrangements were made to remove her in Vancouver with police assistance. After becoming aware that law enforcement had been contacted, Denise voluntarily detrained prior to police involvement.

The cause of Denise's behavior is unclear. She consumed two beers between Seattle and Portland and had been quiet prior to this incident. It is noted that she attended a Seattle Mariners baseball game earlier in the day and may have consumed additional alcohol before boarding.

Amtrak Police notified.

**Delay: 509 (13) 3"**

### ***Train 6(12) Passenger Removal at McCook, Nebraska – Improper Conduct***

13APR26, Passenger on PNR DC97C5, traveling from Denver, CO to Galesburg, IL was reported. Passenger Kyle Numbers engaged in disruptive and threatening behavior in the ADA car, including verbal threats of physical violence toward other passengers. He repeatedly screamed, used profanities, and threw food at several ADA passengers. Statements were obtained from all six ADA passengers seated in the lower level, each of whom provided consistent accounts of the incident.

Based on these observations and witness statements, it was determined that Mr. Numbers had negatively impacted the travel experience of all lower-level passengers and posed a continued risk to their safety if allowed to remain on board. Mr. Numbers was informed that he would be removed from the train at the next station stop. He agreed to disembark at MCK.

MCK Police Department was contacted to ensure Mr. Numbers would receive appropriate assistance if needed. Upon arrival at MCK, local law enforcement met the train and assisted Mr. Numbers with his removal and personal belongings. Amtrak Police notified.

**Delay: 319(06) 05"**
