BNSF Glasgow Subdivision West of Minot, ND - Freight Train Interference

30SEP26: The BNSF reported a freight derailment on the Glasgow subdivision just west of Minot at Shoo Tower/MP 0.63 with seven stack cars and 26 containers on the ground on the 6th Street overpass and blocking both main tracks. There were no hazmat cars involved in the derailment. The derailment ruptured a local gas line. Heavy equipment arrived on scene through 300PM-CT to aid in the cleanup efforts with 25 ballast cars enroute. Train 7/27(29) had access to the Minot depot. Train 7/27(29) arrived Minot at 951AM-CT, 51 minutes late and held for disposition. The rough estimated time for main track 2 to be opened was 800PM-CT. Customer service worked to source alternate bus transportation for a potential bus bridge with train 8/28(29) between Minot and Stanley. There were 197 customers on train 7/27(29) that were affected. Customer service recovery was initiated in Minot with Papa Johns pizza for lunch and a chicken dinner. There were 179 customers on train 8/28(29) that were affected.

BNSF advised that the estimated time of track opening was pushed back until midnight. As a result, a bus bridge was initially implemented between Minot and Stanley. Four buses were sourced at Minot for customers on train 7/27(29) between Minot and Stanley and staged at 500PM-CT. Four buses were sourced for customers on train 8/28(29) between Stanley and Minot and staged at 730PM-CT. All busses were released after an update was given for track opening to be 11:15PM-CT, account of the expected logistics involved regarding the wye and crew hours of service.

Train 8/28(29) was held just west of the derailment at CP189/MP18.9 for disposition. Main track #2 was opened at 10:32PM-CT with a 25mph speed restriction, and 7/27(29) departed Minot at 10:55PM-CT operating 13 hours and 11 minutes late. Train 8/28(29) was behind multiple freights and also had to wait and allow all stacked-up westbound trains to pass, including 7/27(29), before proceeding into Minot. Main track #1 is still out of service, expected to be open by 12 noon October 1st.
